Professionalism: Knowledge of the operational and managerial dimensions of United Nations peacekeeping. Ability to produce reports and papers on technical issues and to review and edit the work of others. Shows pride in work and in achievements; demonstrates professional competence and mastery of subject matter; is conscientious and efficient in meeting commitments, observing deadlines and achieving results; is motivated by professional rather than personal concerns; shows persistence when faced with difficult problems or challenges; remains calm in stressful situations.

Client Orientation: Considers all those to whom services are provided to be “clients” and seeks to see things from clients’ point of view; establishes and maintains productive partnerships with clients by gaining their trust and respect; identifies clients’ needs and matches them to appropriate solutions; monitors ongoing developments inside and outside the clients’ environment to keep informed and anticipate problems; keeps clients informed of progress or setbacks in projects; meets timeline for delivery of products or services to client.

Planning and Organizing: Develops clear goals that are consistent with agreed strategies; identifies priority activities and assignments; adjusts priorities as required; allocates appropriate amount of time and resources for completing work; foresees risks and allows for contingencies when planning; monitors and adjusts plans and actions as necessary; uses time efficiently.

Leadership: Serves as a role model that other people want to follow; empowers others to translate vision into results; is proactive in developing strategies to accomplish objectives; establishes and maintains relationships with a broad range of people to understand needs and gain support; anticipates and resolves conflicts by pursuing mutually agreeable solutions; drives for change and improvements; does not accept the status quo; shows the courage to take unpopular stands. Provides leadership and takes responsibility for incorporating gender perspectives and ensuring the equal participation of women and men in all areas of work; demonstrates knowledge of strategies and commitment to the goal of gender balance in staffing.

Vision: Identifies strategic issues, opportunities and risks; clearly communicates links between the Organization's strategy and the work unit's goals; generates and communicates broad and compelling organizational direction, inspiring others to pursue that same direction; conveys enthusiasm about future possibilities.

Questionnaire

- 1. Fifteen years of progressively responsible experience in military and/or police service, including at least one year of leadership experience in a military/police component of a United Nations peacekeeping operation, at a level equivalent to a civilian Director position or above, is required. Please explain how you meet this criterion using examples.**

For the past two years, I have been consulting with the White House about international conflicts. I led public discussions encouraging to stop producing weapons, and use space engineering as a mediation to world peace with a common, inspirational goal to redirect our focus: the Space Olympics 2030. We have established a bridge with Russian journalists to open communication, despite the electoral corruption. Nuclear blackmail cannot win an American election!

Being a Science and languages teacher for fifteen years is basically identical to being a police officer, but I also have to educate my clients. In Bahrain, my role as Cultural Director of the Alliance française was to promote the French culture among collaborative diplomatic relationships, organizing events or sending students to a French University, for example. I am very familiar with military operations and protocols, since I have been married to a U.S. Navy Chief for ten years and lived at Keesler Air Force base for a year.

- 2. Previous military or police service in the rank of major general or police equivalent is required. Please explain how you meet this criterion using examples.**

I have always been passionate about international negotiations and politics, and an expert at identifying manipulation. I evidenced the implication of politicians or Navy officials in criminal events, such as the terrorist attack at the French Cathedral in Nice, or the explosion of the power plant in Lebanon, or the weapon business between NATO and Ukraine. I even PREDICTED THEM. Those serious allegations got me to be hated and censored for many years, but also respected for my persistence and integrity. As the social media police, I have prepared to become an FBI Agent, submitted my programs to the Naval Post-Graduate School, participated to charity events or official ceremonies for the Navy, so I know their curriculum and mentality! We will replace their “Nuclear Warfare” curriculum by “Nuclear Removal Safety Protocols”. Our strong partners at the

Department of Defense keep us informed of ongoing missions. With my online network, I learnt about the HAARP project and stratotankers!

3. Four years of experience at the rank of Major General or police equivalent is desirable. Please explain how you meet this criterion using examples

As a mother, I am the **BEST, sweetest ARMY GENERAL this Earth** has ever known. In theory, you will NEVER yell at your kids. Of course, they will never play video games or watch tv. They WILL read educational books and novels quietly, clean up their mess every time they create a super duper castle, eat all greens and, most likely, you will homeschool them to grow together in joy and harmony with your family's core values. If this is you, YOU ARE MY HERO!! This video, explaining my techniques as a Major General since the era of the terrible twos and on to pre-adolescence, is for everybody else.

Watch "How to become the **BEST, sweetest Army General Mum**" today and follow me for more parenting tips and vegan recipes:

<https://youtube.com/live/4XVXno-ooPI>

4. Experience working at UN Headquarters is desirable. Please explain how you meet this criterion using examples

This is my thirteenth application for the United Nations. I applied for Public Information Officer, Political Officer, Secretary-General, Indigenous Rights Defender, Global Goals Project Manager, a research on Conventional Weapons... I probably know the UN departments better than the algorithm!

During the Summit of the Future, I volunteered to invite your guests to NOMINATE Secretary-General Guterres for the Nobel Peace Prize. Everyone loved it, and we will obtain it for him in 2025!! I am a truthful partner and supporter of your courageous and inspiring humanitarians all around the world.

Through my business PachaMamArt, I have relayed and complemented your work daily for five years. I wrote a 600-pages Encyclopedia with team-building programs to educate on cultural diversity, and mediate peace through arts. It is also a catalogue of mentors and leaders who can help us improve our quality of life. It will be published by 4bidden knowledge:

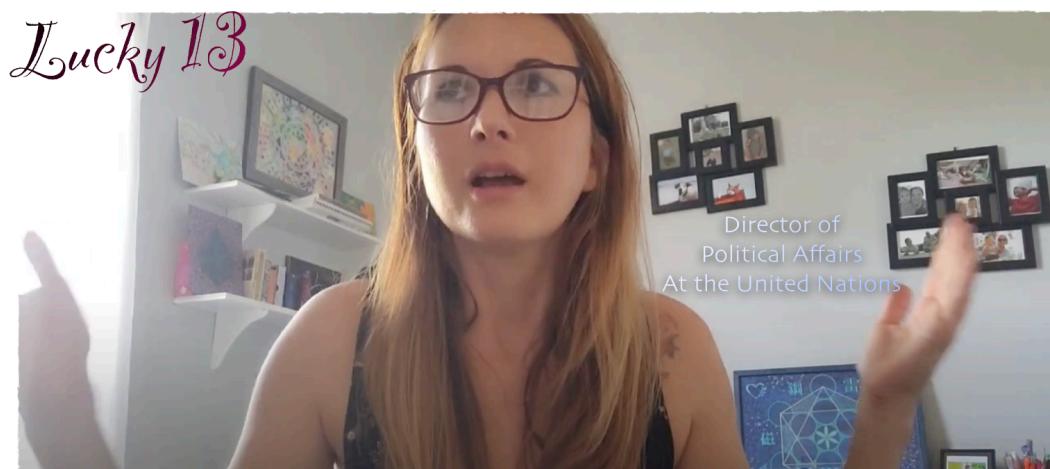

www.PachaMamArt.org/PachaMamArt-Encyclopedia

5. Experience in addressing organizational systemic issues, including but not limited to, safety and security, welfare, and provision of adequate support services for uniformed personnel, is desirable. Please explain how you meet this criterion using examples.

This, is my passion. I wrote to the White House to warn about escalations in Ukraine before they happened, and again to recommend a peace mediation with Russia via space technology. The concept is to trade new starship models for diplomatic agreements and common projects such as the Space Olympics 2030. We will conduct a nuclear inventory with Embassies, start the removal process, and offer reconversion training programs towards sustainable energies.

I created hundreds of video series for families serving as psychological and financial guidance during a divorce, or a business creation. The emancipation of entrepreneurship will keep leaders and people accountable, so we can all contribute to our salvation. NATO and BRICS must ensure that their members enforce and improve international laws. We also must assist everyone in both their professional and personal lives, so they can be pillars and role models at all levels.

Motivation Letter
Director of Political Affairs
United Nations NYC

Dear colleagues,

It is an honor to submit my candidacy for the role of Political Affairs Director at the Peace Operations Department of the United Nations. This story is more than destiny, it is the voice of an entire community.

We all dream of Peruvian indigenous landscapes, Indian dances and French romance. We love UNESCO, calligraphy and diplomatic intelligence. Transforming the world with optimal technology and clean energies, peaceful cooperation and quality education. We want culture, abundance for all, efficient mindset and technical skills. This model exists! My mentor, Dean Graziosi, would say: "Bring value to the world and don't you dare not trusting yourself"! We need more people who believe in possibilities, mostly in times of global catastrophes, insecurity and impunity.

Your teams have been insulted while helping survivors, and even killed. Mr. Guterres, disrespected by Israel at the General Assembly while three billion dollars of food and medicine were delivered to countries in need. We can't keep putting band-aids and let the weapon business lead the way. We have to convince, stop selling destruction and impose mediation. It's time for new rules! The military must be a PEACE FORCE. My plan for the removal of the nuclear weapons is in the documents section.

Could an environmentalist be wiser than officials programmed with armament forever? I am a teacher, a scientist, an author, anthropologist, politician and artist. The SDG are my life and legacy. I have sent legit advancements to scientists, and my new aircraft concept is now being created by Space X! Let's link small businesses, Governments and big corporations to innovate for environmental conservation. If Russia is spending its budget on the war and loosing workforce without investing into progress, engineering is a perfect negotiation asset! Let's get it done.

Please watch "Lucky 13" and consult the files of my recruiting journey at:
