

# PACHAMAMART ENCYCLOPEDIA

Have you ever felt like the truth is right in front of your eyes, that there is more to life than what the eye can see? It is because, there is more. So much more! Along with each symbol and each word, every language is the vase of

a culture that has for only border the imagination and greatness of its population. As our society is becoming so conscious and connected to our divine essence and mission, our languages become transmitters for powerful light codes that act on our body, mind and soul. This is why the decoration in your home, in your marketing, your visuals, the prose and intention in each word is so important, and relevant. Once you learn to decrypt these codes and symbols, you start using them naturally by modeling what you admire and expanding towards a better version of yourself.

What I offer in this book is to take you to the level of the world's greatest geniuses, learn from their knowledge and experience so, altogether, we can continue building a Golden Age of Peace and Harmony, with inspiration, compassion and beauty. I am also proud to present my entire life's Artwork

and Mastermind programs. The Chakradventure, the Flower of life Art Retreat, my Flying Potion... It is designed to be used as a guide for team-building events that you can use with your own family and team, or contact me to organize them for you. It talks about Arts, Science, Health, Politics, Marketing, Business, Humanitarian and Military Organizations, Spirituality,

Prophecies and the Consciousness brought by an amazing international network that decided to join forces to change the world.

Writing this Encyclopedia was like opening the Pandora box. Knowledge is infinite, but once you get the mechanics, you will forever seek to align with a higher purpose and trust your intuitions. And more than the knowledge, the best part of this book is its creation's incredible process. The solidarity that was demonstrated and the tribe that joined in along the journey!

We would like you to be a part of our team!

# 14TH CANDIDACY

DIRECTOR OF POLITICAL AFFAIRS AT THE UNITED NATIONS

QUESTIONNAIRE

**1. Over fifteen years of progressively responsible experience in electoral administration or assistance, international political issues, human resources management, administration, logistics, financial management, budget or related field is required. Please explain how you meet this criterion using examples.**

As per my childhood dream, I worked and studied all around the world to learn culture and languages. I wrote travel books, an Encyclopedia about art and symbols, and studied International Negotiations.

[www.PachaMamArt.org/PachaMamArt-Encyclopedia](http://www.PachaMamArt.org/PachaMamArt-Encyclopedia)

At the Alliance française of Bahrain, I collaborated with Embassies and local institutions to promote France in the Middle-East. We established quarterly calendars with the budget allotted by the SCAC and the profits from our classes. I organized the events, redacted financial reports and also managed the examination center.

Most recently, simultaneously to teaching at Idea School, I built my art (and now political) business online, participating actively to the Presidential elections, promoting and recommending candidates, sharing strategies and connecting partners. This instant access to the news highlighted the urgency of collaborating as branches of one tree to counter corruption and terrorism and ensure a viable and thriving future.

**2. A minimum of ten years of relevant electoral experience in a multilateral setting is required. Please explain how you meet this criterion using examples.**

In a world where technology is exponentially soaring and AI will revolutionize our lives, we don't have time to stop at details. Years are seconds! I have never cared to vote in my life, until a man came to tell women what they should do with their own body. 2024 was my first time voting, but I got involved into the elections like my life depends on it. Because it does. Pollution is damaging our lungs, and wars are raging. The new Secretary-General of NATO just declared that more funds will be spent on armament within the next five years, and our taxes are vanishing in nuclear smokes. I have been at the frontline of "relevant electoral" experience since I was born a world citizen. Period. Seriously, I was born in France, in May 1986, one month after the Tchernobyl explosion. Going on a nuclear hunt and converting the power plants to solar is somethin' personal. America needs a solid bridge with Europe. I am also marching for the NOMINATION of SG Guterres for the Nobel Peace Prize!

**3. Managerial experience, including management of large diverse teams, is required. Please explain how you meet this criterion using examples.**

Working at the Alliance française as a Cultural Director, I managed a team of ten teachers of all backgrounds to implement our quarterly cultural calendar. Our large audience also was of all cultures and faiths. As a teacher, I use different approaches to captivate my students, using countdowns or hand signals, music to relax or creative team-building activities as ice-breakers.

I believe a great manager turns her qualities to her advantage and delegates the load of work efficiently by knowing her team members and their strengths, offering everyone an opportunity to shine. Give the creative work to artists and administrative tasks to the most organized. Management is the balance between remaining calm to solve problems, leading with integrity and demanding accountability.

Teenagers taught me to deliver results and joy for learning while enforcing discipline. Raising citizens who respect the rules, and heroes going beyond the limitations. I also just completed a Human Rights training.

**4. Experience in preventive diplomacy, peacemaking and/or peacekeeping is required. Please explain how you meet this criterion using examples.**

For a decade, I have been publishing cultural and political content on my website, social media platforms and at the schools where I worked, to support diversity, equity, and facilitate the integration of new immigrants. Mentorship and the exposure to different perspectives are key to preventive diplomacy.

Since 90% of the public information is now digital, we communicate instantly. This way, I have reached a worldwide network among NATO, NASA, Space X, The White House, the UN, the FBI, journalists from Russia, European Presidents and Representatives, contributing guidelines and advice. The result is an innovative collaboration towards peace and security.

To avoid a climatic and humanitarian catastrophe, my goal is to redirect warfare towards the Space Olympics 2030, and to convert rockets into sustainable spaceships. I sent art, equations, letters, emails, crystals, to catch the attention of our leaders even though I was still an outsider. Give me a badge and the game is on!

**5. Experience working in or on conflict or post-conflict settings is required. Please explain how you meet this criterion using examples.**

My divorce was the toughest conflict in my life, having to co-parent, build my art business and live under the same roof for two years despite tensions. Similarly to what is happening in Israel. I was bullied by terrorists and my family never believed me. I had to rebuild my reputation and network with no funds, and surround myself with mentors.

What helped me was understanding the different stages of acceptance: from ignorance to denial, then questioning, negotiating, acceptance and, finally, resolution. In this particular case, I knew that negotiating during the anger stage was not possible, and had to wait for favorable conditions to discuss the best outcome for our child.

For Israel, the anger will never be gone. Souls are marked forever. Solidarity is essential, but finding and eliminating the source of terrorism is indispensable. We must separate opponents with a two-states policy, provide cultural education (not weapons) for the new generations, and ensure mutual acceptance.

**MOTIVATION LETTER**

Honorable colleagues,

Kindly accept my 14th candidacy for the role of Political Affairs Director at the Peace Operations Department of the United Nations. This story is more than destiny, it is the voice of an entire community.

I know what you are looking for in terms of leadership and team-building trainings: protection of the UNESCO patrimony, peace, prevention, conflict resolution and recuperation of weapons. We want to eradicate poverty by providing education and free energy to all. 4bidden Knowledge will publish my Encyclopedia, and we should collaborate with Space X, NASA and the International Space Federation to organize the Space Olympics 2030. We must redirect the budget for armament towards equity, and negotiate a new diplomatic cooperation with Russia.

I'd like to complete the school year at IDEA, visit my family in France in July, and start work in NYC in August. My son will move with his father so I can focus on this new career path, and stand strong to our values of integrity to make the world better. We will be an incredible team able to collaborate with the Government and contribute to elections. As a manager, giving people opportunities to shine and exercise their power of decision is essential. I support game-changers like his Highness Elon Musk, Mastermind Tony Robbins, VP Kamala Harris, Astrophysicist Adam Apollo and Communication Specialist Maricela Mendoza.

It is incredibly humbling and flattering to be a part of this community. Please **join my SantArt Retreat December 26-29 in Jacksonville, Florida, to officialize our collaboration and make a plan.** Sign up at this link with CODE: UNFAMILY to obtain your workshop for \$333.
