“ As long as poverty, injustice and gross inequality persist in our world, none of us can truly rest. ”
- Nelson Mandela

Question 1: In 350 words or less, describe why your nominee should be awarded the Nelson Rolihlahla Mandela Prize. Please include the nominee's current affiliation and biographical.

Born in France in 1986, one month after the Tchernobyl explosion, I had an amazing childhood by the Mediterranean Sea, studying anthropology and languages, traveling all over Europe, Asia (Thailand, Vietnam, Cambodia), South America (Peru, Bolivia, Mexico, Nicaragua), the Middle East, **I worked in Lima and Bahrain as a languages teacher and cultural coordinator.** Until I settled to found a family in North America. Our family then moved several times along U.S. Navy duty stations (Virginia Beach, New Orleans, Biloxi, Jacksonville) and **I created an Art business named PachaMamArt while raising my child.** I organized Art classes everywhere I went (Celestial Farms, Vegan restaurants, Ayurvedic centers, Art Galleries) and participated to several international exhibitions, such as the Wynwood Juried Show, Gallery 782 in Biloxi, Arts See and shop gallery, the Art Riviera Tour in St-Tropez and Monaco. I can never stop creating beautiful content and cheering on everyone! I led promotional campaigns for the Nobel Peace Prize, Ecuator Prize, and now my own Mandela Prize! I believe in rewarding people and envisioning our better future.

All along the way, I was filming, painting or writing everything and **published hundreds of Artistic and Cultural Masterminds for 20 series**, and offered those classes online for free. I've put together a **600-pages Encyclopedia**: a catalogue of worldwide symbols and influencers through my art, which became a reference in the digital sphere and among political organizations. I exposed my content and the challenges, injustices or hopes and wonders to redirect public speech towards society and ecology. **We have built solid foundations and an efficient network** that needs new strategies and blood to show solutions and create a wave of leaders. The prophecy of Pachacuti is a balance between Health and Technology.

After my son got older, I was able to return to work and got hired at the amazing IDEA school, 5minutes away from my house, and became a Science teacher. I relearnt everything and more! 7th graders gave me business but we did some great work about discovering renewable energies and genetics. Since more hispanic and international students kept arriving, the network trusted me to take on the EL Department, teach English, train a new teacher and organize cultural events.

“ *A winner is a dreamer who never gives up.* ”

- Nelson Mandela

Question 2: In accordance with the eligibility criteria as defined in the Statute of the Nelson Rolihlahla Mandela Prize, please present, in no more than 500 words, the outstanding achievements and contributions of the nominee (in chronological order, not more than five) to the service of humanity as guided by the purposes and principles of the United Nations.

- **Integrity and Peace-building Values:** I live with integrity and resilience despite the abandonment my business received for many years. I learnt the balance between empathy and shielding against extremism. Studying and serving the truth, perspectives and ideas is the heart of a generation's drive! My greatest quality is persistence. I also managed to stay so creative and positive thanks to our incredible network. It would never be possible without each other. Big sharks are ahead of us, but we are guided by very wise people. I was lucky to attend some of the greatest seminars of our time: The 4bidden Conscious Awards, Yo Soy 2022 Event, and Tony Robbins' Unleash the Power Within! And even made two movies!

Yo Soy 2022, The Movie:

[youtube.com/watch?v=4UQYIxGFEjc](https://www.youtube.com/watch?v=4UQYIxGFEjc)

Emerald Cruise:

[youtube.com/watch?v=f1_geZATM9U&t=1645s](https://www.youtube.com/watch?v=f1_geZATM9U&t=1645s)

- **Community development, social and non-profit work:** As a public school teacher, accompanying students on their road to success is extremely rewarding, mostly for those who try and are grateful. Hearing their challenges gives meaning to my own career. I know the power of empathy and sharing culture. This is why I would like to donate my entire art collection of Mandala paintings to UNESCO and the NYC UN Visitor Center. I would like to lead this new community development project and raise funds for the United Nations, gather people around **Culture, Peace building and tips for their Art or Marketing business, taking care of both sides of the rainbow. Everything is ready in the:**

The PachaMamArt Encyclopedia

www.PachaMamArt.org/PachaMamArt-Encyclopedia

- **Expert in Mastermind trainings:** Volunteered thousands hours of knowledge via any media possible: Books and e-books, art classes, exhibitions, an international teaching career in exceptional institutions such

as the Alliance française, the French Embassy, *El Colegio francoperuano*, the IDEA Schools network. Trained with the BEST mentors on the planet: The Masterminds, Resonance Science Foundation, 4Bidden Knowledge, Gaia tv and advised Presidents with or without their consent on a daily basis via social media, for the past 5 years. I am a true fan of Joe Biden and Kamala Harris, admirer of Elon Musk, extra super fan of The Kardashians, and I love kids even though they drive me nuts.

Online Masterminds, Articles and Books:

www.PachaMamArt.org/classes-and-events

- **Advocacy for the environment and societal Justice:** Pacha Mama is the voice that carried me back to civilization with a wake-up call for humanity, and message of unity. Respect for each others' religions, families and land is the key to a thriving world. My students helped me understand and be a voice for refugees, and **reassure politicians that we are here to bring local solutions to global challenges.** Time to rise and implement our values at massive scale.
- **Academic and research work:** The “Ministry of Sound” is my research on gravitational technology, continuing the work of Nikola Tesla, Elon Musk or the Resonance Science Foundation, and mostly following my humble knowledge of Science and great intuition. I strongly believe that this artwork, that translates an equation, will convert into new SUSTAINABLE ENERGY SPACESHIPS and to the SPACE OLYMPICS 2030, an inspiring incentive to reunite the world, establish a bridge and peace with Russia, or the entire BRICS and NATO dynamics.

Ecuador Prize 2025

Nominate Mother Earth's community

Cuzco is a Quechua name and capital of the Inca Empire (Tahuantinsuyo) that means "Center of the World", the central circle of the Inca cross: **Chakana**

The Prophecy of Pachacuti

A legend says that "when the Eagle and the Condor will fly together in the sky, the world will know Peace".

Prophecies transport us to a world of magic and legends, often far from where we are. But they can only be fulfilled if humans make it happen. Planting seeds in the heart of people, Grandmother María Apaza, from her 99 years of wisdom, is a long-living legend!! Let's make history!!

- 100+** GATHERINGS
All around the world in partnership with conscious groups.
- 100+** CEREMONIES
Honoring the elements and Inca Calendar.
- 25,000** PLANT MEDICINES
Even though most medicines come from the Amazon rainforest!

Struck 3 times by lightning, she was chosen to become the Incas' XX1st century legacy.

"Muqlla"
"When enough seeds (muqlla) are awakened and free, they will be able to sprout within humanity and form the unity of the whole".

“Tell me something, girl, are you happy in this modern world?”

This is the question I ask each of my students, when I meet them. Why are you here? What made you leave your roots to come chase the American Dream? One day, Muhammad told me the story of how him and his family enrolled in an American Government program to expatriate to the United States after the Taliban made school illegal for girls in Afghanistan. He says:

“One day, the Taliban invaded the cities and the Government. The King ran away, it was a mess. The Taliban then went into each home to collect the weapons. After that, it was safe. Life was good. My Dad was a school Principal so school was my second home. But since they made school illegal for girls, my sister Aisha could not receive an education. So, the Americans offered to send us to the U.S. and a lot of our families left. Here again, it was crazy. There were people in the runway hanging on the planes to leave the country”.

efforts
of today
are the
success of
tomorrow!**

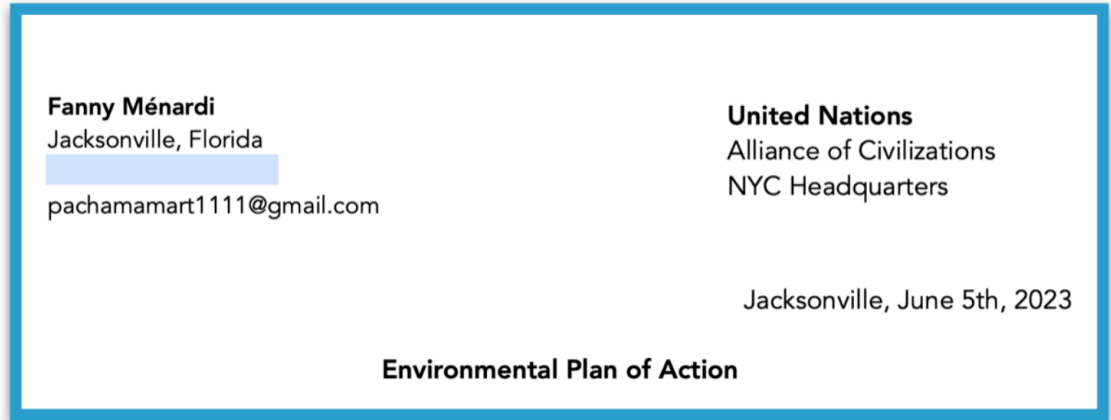

DR. CURTIS LAWRENCE JR. AND IDEA PUBLIC SCHOOL NETWORK

Find our Principal's THESIS about **Charter School Network Organizational Expansion Maintaining Academic and Operational Excellence across State, Racial, Ethnic, and Community Lines** on: eric.ed.gov

The day I met Dr. Lawrence saved my life. I remember going to that hour-long interview with the Principal and his Assistant acting like mad teenagers, teaching my anti-gravity equation and trying to convince them to hire me. I went back, the following day, to drop off my resume again in person and, an hour later, received a call from him saying that I was the new 7th grade Science teacher!! I am forever grateful!! The school was opening with a brand new building, and needed a crew to welcome all the new students in the Arlington neighborhood. And for me, that meant the end of a long struggle (and the beginner of a new challenge). Teachers matter! Just imagine being in a room all day with 30 children! Thanks to his great leadership, daily morning announcements and rigor, Dr. Lawrence led our campus to an A since the very first year of Idea River Bluff, and we turned the stay-home generation into great scholars. After opening campuses all around the country, in Louisiana, Texas or teaching in New York, our Principal is an expert in culture and instruction, recruitment and Implementation of the IDEA educational and business model. Schools contribute to Peace by educating new generations, and to economy by offering employment and opportunities. Our values are Excellence, Equity and Integrity, and we believe in College degrees. Thank you, Principal Lawrence, for your leadership and friendship, having our back and keeping us on track!!

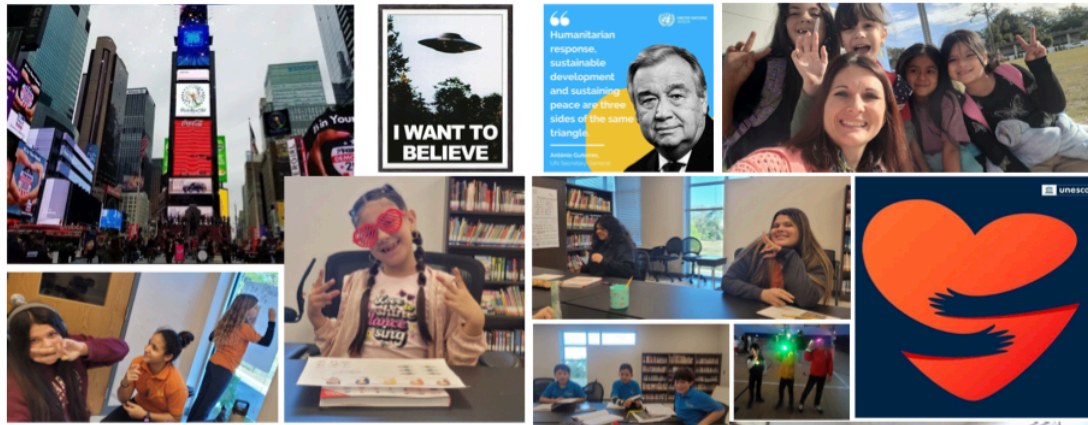

Le Programme sur la Santé Reproductive et la Planification Familiale du Gouvernement péruvien d'Alberto Fujimori (1996-2000).
