Author, Artist, Teacher, Human Rights Consultant

Dear Billy and Elisabeth Carson, and 4bidden Knowledge team,

Kindly receive this project and USB key containing:

- The PachaMamArt Encyclopedia , a gathering of the most influential leaders of the XX1st Century, presentation of world symbols and art techniques. A full TEAM-BUILDING MASTERMIND.
- Yo Soy, The Movie 2022, from Matias De Stefano's exceptional event in Egypt.
- The Mandala Cruise Movie, from my cruise in Egypt and exploration of the Temple of Thoth in Ashmonen.
- The Colors of Nature Oracle, from my Children Hospital of New Orleans' collection.
- The Whispers of the Earth Mandala Oracle (almost ready, need to add a few quotes in card descriptions!): an oracle containing all my Metatron's Vibes collection and most recent artworks. Video series are already available on my website!

This is my resume. I am hoping that the publication of the PachaMamArt Encyclopedia will manifest my recruitment to the United Nations, so our team can get involved in world-changing actions and policies. The goal is to publish this book and distribute it worldwide, train professionals to arts and communication, and tell the story of a network that grew exponentially by uplifting and supporting each other, whom I call Team 143! You have been major actors of my persistence and I will be so honored to collaborate with you! I want to work with Elon Musk to develop sustainable energy spaceships and convince him to have us build his cities on Mars. The other projects are ready to be published as well if you are interested! Please contact asap so we can start working. Thank you so much and be blessed! I hope you like the Art and the crystal, it is a sample of what I teach in the book!

## PROFESSIONAL AND PERSONAL SKILLS

- **Teaching, Communication and Languages:** Learnt through College education, a diplomatic and teaching career, international travels, a self-taught art business, Masterminds trainings and a strong connection to Nature. Fluent in French, English and Spanish: read, written, spoken. I love grammar, and most importantly, I am passionate about EVERY culture and want to encourage our children to value other people's traditions, and opinions. One of my favorite books is "The Hidden Dimension" by anthropologist E.T. Hall. It changed my vision in understanding how essential is cultural education for social integration. My main question in life is to understand how communities can integrate the sacred teachings of every era, from ancient civilizations to our new habits and religions.
- **Emotional, Intuitive and Evolutionary Intelligence:** We all have unique talents and skills, yet before everything else, we are humans trying to thrive in an ever-changing world, needing points of reference to feel safe, loved, understood and motivated. This is the foundation of a healthy community. From there, we can find and co-create a more balanced, diverse and compassionate society.
- **Community Bridge:** I love to highlight people's connections through cultural diversity, scientific evidence, collective consciousness and psychology. Laws, economy, religions, family, bring new rules each and every day. One of the greatest challenges and imperative necessity is to create a World Consciousness to extinguish wars, increase awareness and compassion, while protecting what makes us special: cultural diversity, freedom of opinion and speech.
- **Team Work, Leadership and Creativity:** Very attentive to details while always keeping in mind the greater picture. One of my main interests with the specific painting technique of dotillism is to introduce these key concepts, from microcosm to macrocosm, in a peaceful and entertaining environment, to trick mental blocks and open up our creative channels. I have been working on my own most of my life, and even though I enjoy it (because I am such a perfectionist), I miss the dynamism and richness of relying on quality team members to bring results faster and reach our best potential, manifesting ideas and strategies while complementing our weaknesses and strengths. I just created a new, amazing team-building program gathering impactful stories and teachings.
- **Technology:** Proficient in Mac Book and Windows softwares, movies and clips creation on iMovie, Power Director and interactive whiteboards. Also very interested in renewable energies, crystal and sound healing, new technologies like solar panels, remote viewing and frequency devices.
- **Optimism and Loyalty:** Children need an engaging learning and social environment. We can train our mind every day to overcome obstacles and still bring colors and authenticity to the world. It is not easy and it needs to be reminded every day, like food for the soul. We have to encourage each other for the healing, health and diversity of this world. Loyalty and integrity are key.

## PROFESSIONAL EXPERIENCE

### Since January 2015 Artist, Art teacher and Owner at PachaMamArt

*Art and holistic healing organization promoting the dotillism technique, language of art, symbolism, sacred geometry, ancient civilizations and evolutionary concepts like new technologies or our "super" natural abilities, and most importantly, building a rainbow bridge between cultures, and a community. All the details about my art, events, life work, books, Masterminds, articles, interviews, conferences, exhibitions, videos, are on my website [www.PachaMamArt.org](http://www.PachaMamArt.org).*

- **Mandala Artist, Interior Design and Energy Healing:** Participated in three international exhibitions for the *Wynwood Juried Show* in Miami (2018), the *Art Riviera Tour* in St-Jean-Cap-Ferrat (2021), and showcased at the *Art See & Shop Gallery* in Jacksonville (2020). I have created hundreds of detailed, precious and meaningful mandalas, including a collection of 30 artworks around the theme of healing, entitled "*Colors of Nature*", for the Children's Hospital of New Orleans, commissioned in 2018.
- **Art Teacher:** hosted weekly mandala painting workshops in 2019-2020, for groups up to 10 students in my Art studio in Jacksonville, Florida. A great opportunity to meet like-minded creative locals and share ideas about art, spirituality, creating designs, using symbolism, and learn new artistic and meditative techniques. I now offer on demand Art retreats and team-building trainings.
- **Author** of several publications, online Masterminds and articles about a wide variety of topics like Art, Cultural Symbolism and traditions around the world, telepathic communication through crystals, chakras alignment, crop circles, natural healing and intuitive readings:
  - The *Mother Earth Mandala Oracle*, published by U.S. Games Systems: a colorful oracle cards deck with 44 of my mandalas and an inspirational booklet. Gold Winner of the COVR Award for Visionary Products in 2021.
  - The *PachaMamArt Encyclopedia*: a 600 pages book about worldwide symbols and culture, with interactive activities for adults and children, never done in history! [www.PachaMamArt.org/PachaMamArt-Encyclopedia](http://www.PachaMamArt.org/PachaMamArt-Encyclopedia)
  - A series of 10 travel e-books and articles to promote conscious tourism and cultural awareness featuring my trips around the world in England, Peru, Bahrain, Mexico, Thailand, Paris, the Amazonian Jungle and Spain.
  - A dozen of fabulous online Masterminds to diffuse my references and technique:

**Ministry of Sound:** Development of an electromagnetic sustainable system to master gravity.

**Metatron's Vibes:** An advanced course on Sacred Geometry, how to paint and interpret a Metatron's Cube, as well as a presentation of my network and library references.

**Summer Vibes:** How to paint a French Riviera Mediterranean landscape with mystical characters!

**The Angel Pack:** A fundamental video series of painting workshops from my art exhibition and "painting challenge" in France in the Summer 2021, worldwide and cultural issues discussions on politics, society, and personal healing stories.

**April 2014** French Teacher, Cultural and Examinations Director, Alliance Française of Manama, Bahrain.

**Jan. 2013** *International Network for the Promotion of the French Language and Culture.*

- **Cultural Events Organization:**

Elaborate, organize, animate cultural and educational programs in direct collaboration with the French Embassy: concerts, conferences, theatre plays, exhibitions like *Around the World in 80 pictures*, the *Frenchtoonix* comic book project with our younger students, the “*Francophonie*” week, leading to an increase of students registration and event participation of 200%. The efficient and challenging work by our team earned our amazing Director, Christophe Freschi, to be awarded with the Legion of Honor for his meaningful influence in the region.

Identify the students and teachers needs, develop multimedia marketing and communication strategies, like the implementation of a quarterly cultural calendar to plan and promote well in advance, gather with the team of teachers to brainstorm, present and introduce the cultural events into the curriculums.

Develop and entertain partnerships, networking and negotiations with local and international businesses, restaurants, hotels, art centers, schools and associations like the AFBH (Association des français au Bahreïn).

Client relation and follow-up, website development, creation of a newsletter, social media animation. Redaction of the programs, budget, organization and assessment reports for each event.

- **Examination Center**

Promote French language examinations towards our students, schools and Embassies.

Prepare the candidates, organize examinations, registrations and Graduation ceremonies.

- **French Teacher - all public:**

Teach French language to children, teenagers and adults (10 hours per week).

Create and share educational documents on interactive whiteboards with students and teachers (TBI).

- Oct. 2021 Online registration to the **Alpha Omega Expedition**, conference and research program in Egypt by Mathematician and Cryptologist Robert Edward Grant, Jamie Janover, Gabriel Lyrion and a selected group of international students, specialists and influencers. The goal of these studies is to evidence the interconnectivity of civilizations and ancient technology advancements.
- 2020-2021 First Module of each elective courses from the **Resonance Science Foundation** on the themes of Science, Mathematics, Astrophysics, Quantum Physics, Sacred Geometry, Egyptology + Weekly Questions & Answers Conferences (online). - Leading to the **interview of Adam Apollo**, Astrophysicist at the Resonance Science Academy, on the theme of Solar Energy for my yearly thematic events: **The Chakradventure**, presenting conferences and interviews on a wide diversity of holistic and evolutionary themes like energy healing, ancient history and prophecies, literature and psychology.
- 2019 **Artists in Business** Intensive 3 days training, New York City with marketing specialist Alexis Fedor and artists from all around the world.
- 2014** **PRO-FLE CERTIFICATION**, by the CNED (National Center for Distance Learning) (online)
- First Module: Designing an educational sequence for French learning students, that serves as the basis for any course I teach: a student-oriented approach. For example, how to highlight stereotypes (what we already know), overcome clichés (where this belief comes from) and generate a collaborative approach in a new culture (bringing new information). It seems natural for a teacher to prepare her session and deliver, while involving techniques that make the student feel like he created it all to motivate and increase the feeling of accomplishment.
- April 2014** **Intensive training for Educational Coordinators and Team Managers**
- Cavilam - Alliance française, Vichy, France - Communication and Team-building techniques with teachers from French Institutes all around the world. Absolutely amazing and transformational!
- 2013** **Training: New technologies in the educational framework - Alliance française of Bahrain**
- Specialization in Interactive Whiteboards with SMART Notebook, Tackk, Padlet... probably **obsolete by now but the intuitive approach** stays the same. How to **dynamize a learning session** by using multimedia resources (games, songs, internet, or built-in database).
