**Spontaneous Candidacy for the Honorable Function of
High Representative of the Secretary-General and
Director of the United Nations Alliance of Civilizations (UNAOC)**

Excellencies, Dear Secretary-General Mr. Guterres, and Mr. Moratinos,

Leading a decade of digital collaboration with the United Nations and our partners to promote Peace and local solutions to global challenges, I am pleased to **present my spontaneous candidacy to relay Mr. Moratinos in his role of High Representative for the United Nations**. I know that both of you will retire soon, and it would be the **honor of my life to continue your life mission and legacy**. I am a strong supporter of Mr. Guterres, campaigning for you to receive the Nobel Peace Prize this exceptional year, because you inspire us to live with courage and integrity and this is what shaped me. I carry the voice of Pacha Mama, and our partners' knowledge. Scientists, Presidents, Writers, Teachers, Mentors and Leaders, but also, Single Mothers, Small Business Owners, Immigrants, those who struggle and deserve opportunities to make this world and their families better, but are often denied this privilege because society teaches to stay in our lane and obey. But not me! Nothing will stop me because our lives depend on it. The air we breathe, the news, the speeches.

My mentors always ask: Who are you when noone is watching? Am I perfect? Well, almost. Do I get angry? Yes. I have long to gain your patience and wisdom, but my passion to defend human rights and protect the world's heritage, I was born with it. This is my mission. I want to keep politicians accountable and promote culture. I want to negotiate the full removal of nuclear weapons with Russia and lead the entire world in this direction, and jail criminals. They are keeping us distracted with riots in California while sponsoring wars and genocides, but we have to be on our politically correct tippy toes, fearing the risk of retaliation. Maybe we shouldn't be patient, because this is urgent!

ENOUGH. The International Criminal Court is being bullied, impunity and nuclear blackmail are at their paroxysm. We need to redirect the billions of dollars in budget towards employment, harmony, culture, art, architecture, and sustainable engineering so everyone can be uplifted towards exciting opportunities. In the following documents, you will find my Plan of Action and a list of projects that I would love to implement with the UNAOC. You can follow my recruiting journey at www.PachaMamArt.org/the-United-Series, and download my book, the PachaMamArt Encyclopedia, at www.PachaMamArt.org/PachaMamArt-Encyclopedia. This book is a Team-building training that will serve as a foundation for our staff, partners and visitors all around the world. I will also **donate my entire art collection to UNESCO**, hoping that my support and consistency over the years has convinced you that you can trust me. I am looking forward to meeting all the wonderful, beautiful change-makers who make your events so incredible, and to bringing my tribe to the world table. **I kindly urge you to contact me by phone for an interview before June 19th to plan our common future. I commend your excellent achievements and role model influence.**

Sincerely,

Fanny Ménardi

What does it look like, objectively? Here are some ideas for this mission where I'm gonna rock it for you and for me and the entire human race from positive experience and also from huge needs in the communities to link the Ancient and Modern. I am so grateful to see our community coming together:

✓ **Organize Worldwide Exhibitions of Indigenous Art.** In Bahrain, we had the best idea and the event was absolutely fabulous! The Alliance française had a beautiful traditional Bahraini House called Maison Jamsheer with many rooms, in the most authentic neighborhood (Muharraq). In each room, we created the ambiance of a continent with food, drinks, music, fabrics and pictures from each country so people could travel and learn about the world in one night. This was a fundraiser for the Cultural Center called "*Around the world in 80 pictures*", organized by my colleague from the French Embassy, our partner from the BNP and myself. A great success that would be amazing to recreate!

✓ **Online interactive World map** with all the tribes around the world, pictures of their village, like windows to the world. A few words in their language, food, art, music, animals, instruments. Zooming in and out.

This is an example of an online tour I created in 2015 with a very bad connection and program, but we can do something similar with the new technological advancements: "*Envolez-vous... Sur le chemin de vote destin*".

<https://prezi.com/embed/2y27bn0jt9dq/>

✓ **Make a giant online library of Indigenous and worldwide Arts** available for Marketing Agencies or public resources with all the contact details of each artist. Promotion is Key for the artists and, for other platforms, it is so annoying to create content and always have to find out who owns the copyright of an image. Let's free the arts and help artists get promoted so they can be reached out to for new orders.

✓ **Open MORE art galleries co-ops with quarterly cultural calendars** for events and conferences. Small businesses will be encouraged to speak, network, and promote their work to others. This is also valid for gastronomy and promoting world food and language or healing centers.

✓ **"Art in the City": New great gallery of World Arts in NYC** with conferences and events, workshops and partnership with restaurants, interview of artists and live videos or documentaries.

✓ **Creation of The Pachacuti Mag** (or a new section in the *Awake at Night* Magazine) published each quarter to feature **tribes around the world**, teach some vocabulary and songs in their language, Feature their Art or Farming techniques, Holistic Healing, Science, Gastronomy, show what schools look like all around the world, with a bridge to the U.S. Where to find them or a **call to action exposing the needs for partnerships and community**.

✓ **Partnership with Schools** with Native American speakers (or from other cultures) to introduce their country of origin. In France, every region as an optional Greek, Latin, or local language on top of the main English, Spanish, etc... What is it like to live in the Amazonian Jungle? Mostly for little Americans who are not used to travel.

✓ **Creation of the Symbols of the World Oracle!!** With PAINTINGS created by the PachaMamArt Encyclopedia's workshop participants, with an explanation of the symbols or tribes of the world. We can also create a **Tribes of the World Oracle**, with PHOTOGRAPHIES of the most endangered communities around the world and their secrets.

✓ **Collaborative projects:** how can local and bigger businesses get involved into indigenous Arts and Communities? By BUYING or showcasing their arts and products. Bringing the color trend back to the homes, restaurants and mostly, HOSPITALS.

✓ Integrating **Shamanic and holistic medicine** to Modern day medicine.

✓ Publish my Master's Degree Thesis about the Promotion of the Indigenous Communities in Peru in the past 20 years, as well as an extensive research about the "*Plan de Salud Reproductiva*" under Alberto Fujimori's Presidency, that gives us very interesting information about vaccination campaigns.

Le Programme sur la Santé Reproductive et la Planification Familiale du Gouvernement péruvien d'Alberto Fujimori (1996-2000).

Thank God Times have changed Great job supporting new families Mr. President :)

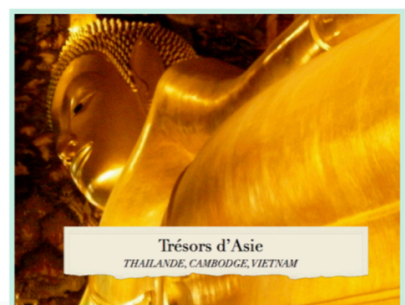

White House touts plan to provide \$1K investment accounts for newborns

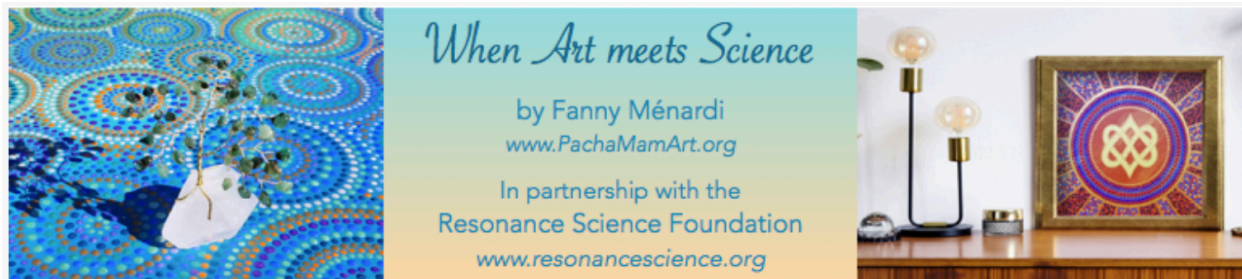

1) Proofreader and Production Editor (P4):

I have been creating sociocultural and artistic content everyday for the past decade. I have a ton of articles and books ALREADY written that I can provide to the United Nations. Books and articles about international travels and cultures to open our minds to differences, learn about each other, respect our differences and honor our complementarity:

- Bahrain, l'autre c'est moi
- Espagne, un voyage atypique
- Lima, une ville surprenante
- Reconnecting path in Mayan Territory
- England
- Asian Treasures
- Paris-Normandie
- A New World
- The Amazonian Rainforest
- In the Middle of Nowhere

I wrote scientific publications for the Resonance Science Foundation, evidencing the legitimacy of Arts in the evolution of humanity's consciousness, and a full report for NASA about the future of technology with an anti-gravity formula that will change the entire structure of our energy sources. No more oil, no more pollution. You can find everything in my online library at www.PachaMamArt.Org. I love to write and investigate on every topic, from social health to environmental matters. This is a beautiful opportunity to keep contributing to our vision through literature and graphic design. I like the fact that this is a team-oriented position. All this can be done with other artists' content as well. We can create the greatest online library in the world.

PACHAMAMART ENCYCLOPEDIA

Have you ever felt like the truth is right in front of your eyes, that there is more to life than what the eye can see? It is because, there is more. So much more! Along with each symbol and each word, every language is the vase of a culture that has for only border the imagination and greatness of its population. As our society is becoming so conscious and connected to our divine essence and mission, our languages become transmitters for powerful light codes that act on our body, mind and soul. This is why the decoration in your home, in your marketing, your visuals, the prose and intention in each word is so important, and relevant. Once you learn to decrypt these codes and symbols, you start using them naturally by modeling what you admire and expanding towards a better version of yourself.

What I offer in this book is to take you to the level of the world's greatest geniuses, learn from their knowledge and experience so, altogether, we can continue building a Golden Age of Peace and Harmony, with inspiration, compassion and beauty. I am also proud to present my entire life's Artwork and Mastermind programs. The Chakradventure, the Flower of life Art Retreat, my Flying Potion... It is designed to be used as a guide for team-building events that you can use with your own family and team, or contact me to organize them for you. It talks about Arts, Science, Health, Politics, Marketing, Business, Humanitarian and Military Organizations, Spirituality, Prophecies and the Consciousness brought by an amazing international network that decided to join forces to change the world. Writing this Encyclopedia was like opening the Pandora box. Knowledge is infinite, but once you get the mechanics, you will forever seek to align with a higher purpose and trust your intuitions. And more than the knowledge, the best part of this book is its creation's incredible process. The solidarity that was demonstrated and the tribe that joined in along the journey!

We would like you to be a part of our team!
Fanny Ménardi and Team 143

7 Day Law Of Attraction Guide

When you begin applying the Law of Attraction, it can feel like 5 would take months or even years to manifest the lifestyle of your dreams. But don't worry, with these steps you can start seeing manifestations in just 7 days!

- Day 1** - Choose what to manifest. First make a clear decision on what you want. Then write it down with something used to lay the foundation of your dreams.
- Day 2** - Visualization. Visualization is an extremely powerful tool. When done it can help you see the details of your goal. It's important to stay positive and focused on your goal.
- Day 3** - Affirmations. Come up with a set of affirmations related to your goal and write them out. Repeat this set of affirmations.
- Day 4** - Self-talk. You need to start thinking about what you want to manifest. You can do this by talking to yourself in a positive way. It's important to stay positive and focused on your goal.
- Day 5** - Gratitude. As the old saying goes, "what you focus on grows." When you focus on gratitude, you are sending a message to the universe that you are grateful for what you have. This will help you attract more of what you want.
- Day 6** - Stay positive. Stay positive and use the power of others to help you. It's important to stay positive and focused on your goal.
- Day 7** - Be Open To Signs and Miracles. The universe should claim. Miracles are signs and signs are opportunities in your direction.

Others essential points:

- **Relocate the budget attributed to weapons distribution, and invest it towards employment and humanitarian assistance.**
- **Modification of the United States Constitution.** We MUST replace the Second Amendment. The United States of America is the only country where mass school shootings by random people are happening, every year!! This law is a crime against humanity. We must replace fear of each other by trust of each other.
- **The end of nuclear power:** My question to our political leaders: What are you doing when no one is watching? Every year, millions of people meditate for peace and the removal of nuclear weapons. In return, the worldwide governments are building MORE of them. Enough of playing warfare with our taxes. What was created in a century won't disappear overnight, but we must gather the scientists who are finding out about the new energies and discuss how we can transition to a safe source of power all around the world. When the military is no longer a war force, but a peace force, we can start fully focusing on humanitarian missions and cure inequalities all around the world. **We must work with our partners at the Naval Post-Graduate School to ensure new themes in the curriculum. Replace "Nuclear Warfare" by "Nuclear Removal and Safety".** I want to gather my awesome Scientists and the Military to establish new fundings and partnerships. Team 143!! It is already happening. Right now the Military is all over the place helping people build their natural disaster response plan, and rebuild the trust between countries. The transparency and collaboration between countries is greater than ever. Meetings are filmed live at the White House and Embassy representatives are accompanying the teams in every step of the journey, which will naturally dissolve the conspiracy theories and reinforce the trust between the People, the Governments, International organizations and authorities.
- We could send an official of each country in each main official worldwide organization to establish a **repertory of all the power plants and nuclear weapons in the world.** Antonio Guterres mentioned that there are 13,000 known nuclear weapons in the world and tries to awaken the world to agree that this is nonsense. We must vote an order for the full removal of these weapons. It will be done progressively over the next decade, and every

country will help each other in deconstructing the old and rebuilding the new facilities. Imagine a village that only needs a small device to power the entire community? Or even a city? This is a World incentive. As a Native proverb says: *"We do not inherit the land from our ancestors, we borrow it from our children"*.

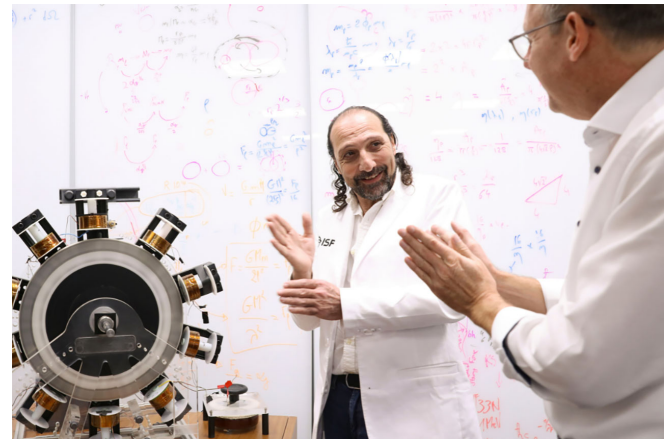

- **The new paradigm, a voice for Science:** Nassim Hamein, Director of Research at the Resonance Science Foundation, declared that a new source of free energy, following Nikola Tesla's model, will be available soon. I have witnessed this phenomenon a few years ago while I was in Bolivia. If nature can do it, so can we. Until then, we should keep encouraging the installation of Solar materials and ensure that reliable recycling plans are in order in case new systems appear.

Interview of Nassim Hamein:

<https://fb.watch/hX-xYaNCgT/?mibextid=6aamW6>

Interview of Adam Apollo, Astrophysicist at the Resonance Science Foundation about Solar technology:

[youtube.com/watch?v=GJ4y68zGzds&t=1895s](https://www.youtube.com/watch?v=GJ4y68zGzds&t=1895s)

- **The steps of the energy transition:** The main obstacle to this switch is the cost of the transition. What do we do, now that we have billions of cars and hundreds of rockets going to Space? Nasa is amazing at progressively integrating solar energy to all their spaceships and satellites, but we must ask ourselves questions about the cleanest forms of vehicles possible before we take over space. Space X, Virgin Galactic, and the Space Force. Airplanes... Did you know that THOUSANDS of jobs are open now for Space Engineering? I want to give my Anti-gravity formula based on Ancient Technology to their engineers so they can test it.
- **International Decisions and Plan of Action:** Once we have an operational formula, we distribute it to all the power companies, research centers and, most importantly, the engineering SCHOOLS.

Climate change and the decrease of air contamination is a concern to everyone, and starts with our carbon footprint. Oil is the blood of the Earth. What happens if you drain the blood from your body? You start defibrillating. There will be more Earthquakes and Volcanic eruptions if we keep abusing natural resources. The technology I am suggesting is based on a fusion of metals and crystals conducting energy from the vibration of sound.

THANK YOU ISF FOR FINDING THE MISSING PIECE OF OUR GRAVITATIONAL AND ELECTROMAGNETIC PHASE EQUATIONS - This will get you the Nobel Prize of Physics once IMPLEMENTED on our new SPACESHIPS. I KNOW IT!! Pure genius and team work!

THANK YOU NATO and to our military forces for keeping us SAFE - LAW AND ORDER - LOVE AND REBELLION - HARMONY - BE YOU!

...the characteristic length scale at which spacetime metric fluctuations can be observed as a response of vacuum electromagnetic fluctuations. Wheeler analyzed the phase of the Feynman-Huygens equation for a field that combines an Einstein-Hilbert action and an electromagnetic free field such that the exponent phase is described by

$$\frac{S_H}{\hbar} \sim \int [(c^3/8\pi\hbar)(\partial g/\partial x)^2 + (1/8\pi\hbar c\mu_0)(\partial A/\partial x)^2] (-g)^{1/2} d^4x \quad (2.8)$$

where S_H is the Einstein-Hilbert action with a potential vector A and $g_{\mu\nu}$ the spacetime metrics. For a typical region of space L^4 , the phase variation $\delta\varphi$ in the path integral formulation due to alterations of the metrics component δg and electromagnetic fluctuations of the potential vector δA can be written as [25]

$$\delta\varphi = \delta S_H/\hbar \sim (c^3/hG)L^2(\delta g)^2 + (1/hc\mu_0)L^2(\delta A)^2 \quad (2.9)$$

where the phases are defined as

$$\delta\varphi_g = \frac{c^3 L^2 (\delta g)^2}{hG} : \text{gravitational phase} \quad (2.10)$$

$$\delta\varphi_{em} = \frac{L^2 (\delta A)^2}{hc\mu_0} : \text{electromagnetic phase} \quad (2.11)$$

From THE ORIGIN OF MASS AND NATURE OF GRAVITY Research by Nassim Hamein

ANCIENT OLYMPIC GAMES

The Olympic Games began in Olympia, Greece, in 776 BC and took place every four years until AD 393. They were held in honor of Zeus. At the first Games, athletes competed in only one running event held on a single day. However, over the years other events were added, and the Games eventually were expanded to five days.

- discus**: In the discus event the athletes throw a disc-shaped object for distance. The discus itself was made of stone or later, iron, lead, or bronze.
- long jump**: To increase their distance, the athletes held weights. They swung them above their heads on takeoff and threw them behind them before landing.
- javelin**: The javelin was a wooden rod with one end sharpened. The athletes held a leather strap placed around the rod that helped them to throw the javelin farther.
- equine events**: Two- and four-horse chariot races as well as horse riding races made up the equestrian events. The owners of the chariots or horses, not the participants, won.
- pankration**: The athletes fought with bare hands while standing up. An athlete won after he forced his opponent's hips, shoulder, or back to the ground three times.
- wrestling**: The athletes fought with bare hands while standing up. An athlete won when his opponent was knocked out or gave up.
- running events**: There were four running events, all of which consisted of a predetermined number of laps in the stadium. In one race the athletes wore armor and carried a shield.

Champions of the Month:

Mark Rutte, NATO's Secretary-General, for being a strong shield for Europe and generating peace without casualties. The weapon companies love him very much and, eventually, the goal of Defense is Peace. We hope to transition soon, work towards the complete removal of nuclear weapons and refocus on a pacific common goal for the Space Olympics 2030. Great unity in Europe!

Snoopdogg, for being the eternal Peace & Rebellion rapper! Successful people never stop chasing their passions and dreams! A life-long international inspiration.

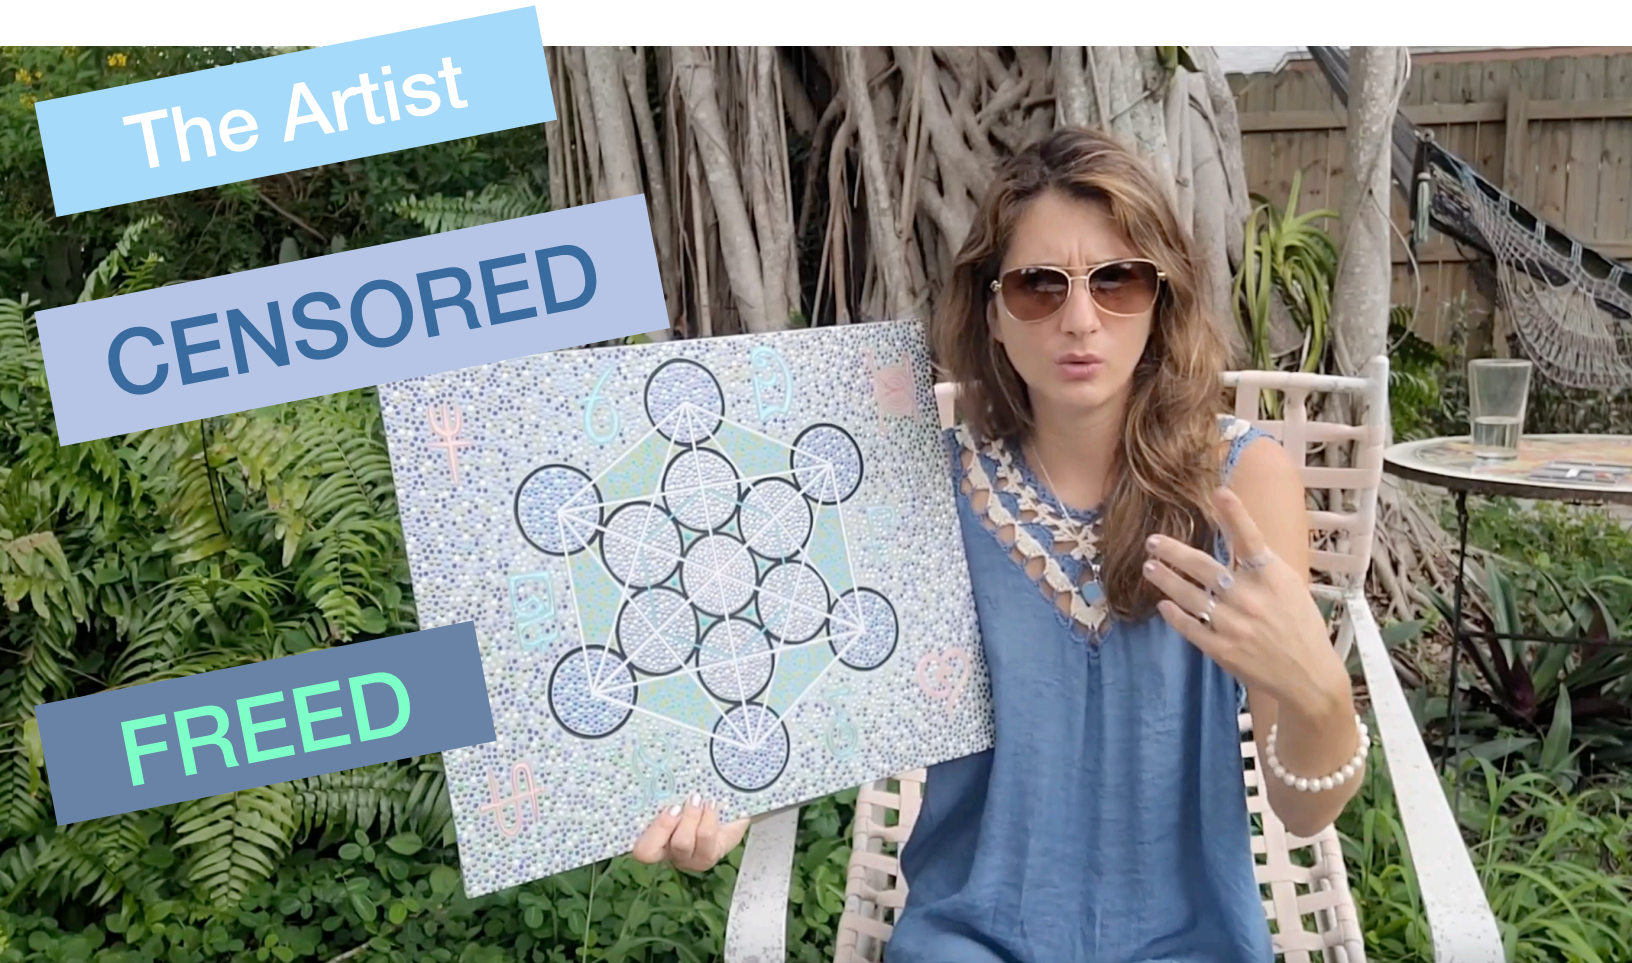

Agnès Pannier Runacher, French Minister of the Environment and Oceans, stood up for the UN Ocean Conference with all her enthusiasm despite the critics. Great people within a mission to save the world! Free the Willies!

Vote for me!!

(It wouldn't be me if I didn't have an attitude!!
Some love us, others hate us, either way we won't
stop existing and preaching!!

To those who stay, loyalty guaranteed!
