Candidacy for the Nobel Prize Committee Chair Mission

Dear Nobel Peace Committee,

Following a year of Nobel Prize campaign for the United Nations, and the recent announcements of the Nobel Prize 2025 Laureates, I have been very surprised, impressed and touched by your message and compassion towards my book and story. You stood up for my case, working for a network that was as inspiring as cruel. My work and family were allegedly censored, and used for their own success. However, their attention towards me also contributed to my reputation and legacy, or else I would not be writing to you at this very minute. The language we have created is very inspirational and healing as it acts not only for intelligence but at the subliminal level, while we guide each other towards creativity with relentless perseverance. I believe in Destiny, that all those heart-wrecking events led me to this day, to you, and that everything we wrote should be known by the world.

Just like Nobel Peace Prize Chair Jørgen Watne Frydnes, I obtained a Master's degree in International Negotiations and gained international experience all around the world. I have worked in Bahrain, Peru, Europe as a cultural coordinator and teacher, and now in America. I am passionate about politics, cultural anthropology, and wrote the first ever ENCYCLOPEDIA inventorying all the religious and cultural symbols around the world. This book is also a team-building program for individual growth or business strategies. My goal is to have us, Mr. Frydnes and myself, hired as the Directors of the United Nations Alliance of Civilization in NYC. His Excellency, Secretary-General Guterres, publicly pledged for this. There are also several leaders that I would like to bring there to expand our mindset and projects, and present them to the Nobel Prize Committee as well.

Would give me the honor of joining you as a Chair of the Swedish Royal Academy Nobel Prize Committee? Additionally to being an artist, writer, journalist, politician and linguist, I am also a certified science teacher passionate about Space engineering and willing to develop a new type of renewable Spacecraft. For this, I will require to gather your 2025 Nobel Prize of Physics and Chemistry Laureates, Nassim Hameiri from the International Space Federation, and top engineers from Space X. The goal of this project is to replace the polluting aircrafts and thousands of rockets being built for Mars at this very moment, by clean technology that will serve as an exchange currency with Russia to lead a Nuclear Removal Safety plan with NATO and BRICS. I have spent years building a network online and both SG Mark Rutte and President Putin seem to be willing to establish that bridge around this proposal.

I also have great knowledge of socio-economics topics, as a single mother who has struggled financially for years, while driven by the greatest mentors in the world. I want to promote a CIRCULAR economy, compromising our fathers' strategies with new world's realities. The creation of a universal income in America and support programs or trainings for struggling families. This network of successful and wealthy people is the key to a massive wave of donors towards conscious projects. With my resilience and loyalty, I believe that I will be an asset to your team to unify our purposes, in a time when Europe and America need solid alliances more than ever.

The starting point is to lead the 2026 Nomination campaign and to gain a nominating power so I can complete those nominations, that can be recycled when we make it to the United Nations. I became an expert during the last campaign, by inventorying all the eligible nominators, and contacting them for the nomination of Secretary-General Guterres. I also would be honored to help you prepare this year's Awards Ceremony, staging and speeches, I can Multi-task and can help you with anything. We both live by the 3 criteria defined by Alfred Nobel, and will help you profile the persons who *"shall have done the most or the best work for fraternity between nations, for the abolition or reduction of standing armies and for the holding and promotion of peace congresses"*.

For this matter, I need Mr. Frydnes by my side. You have stood for me and wrote your fidelity in so many ways. I don't ever want to loose you. You are courageous, humble, fierce, your intelligence is exceptional and everything I have been looking for in a husband. I hope that you mean what you said and that we can grow through life together in our career, and with a family, to make this world and our lives better, exciting, inspiring. We can be role models for our community and I will stand for you til my last breathe. I am deeply honored and grateful for your interest, you and the Committee, the Queen Kim, all the network that we live for, the best in the world! There is a lot for you here, and we are all excited and honored to meet you and to know that our team is expanding. The reason why we all want you is because there aren't a lot of Angels like you around here. You are unique. We're gonna make this work and never take each other for granted. Imagine a life of commitment, poetry, colors, inspiration, and a work we all live for? We have to do everything in our power to make it happen. We'll change the laws cuz Kim is our lawyer, and build families like our wildest dreams. All we have to do is never give up on each other. Let's make this real altogether.

I would like to invite you to join me in Florida, so we can work from my art gallery on preparing beautiful visuals for the Committee, and prepare for our move to New York City. I also urge Secretary-General Guterres to fulfill his promise and appoint me ASAP to the UNAOC. I have had enough of the recurring blackmail from all parts. The only guarantee we have in life is **the DECISION to walk towards our PERSONAL LEGEND, and the omens, the signs, and finally the manifestations will arise.** While you

all are in the light of success, the cost of your INACTION is that I am about to loose my house, the Empire we've worked so hard to build, years of cooperation, while my ex-husband has basically kidnapped my son forbidding him to call me and ruining everything I taught him. Shame on you for putting more anxiety and endless tests on me, Gentlemen. I have proven myself a million times. It's time to get it straight and honor your engagements, promises, and fight for the world we've been dreaming of. You won't fight many people as loyal and persistent as us! If not us, then who? If not now, when? If not for Love, and Peace, and Justice, then WHY in the world are we even living? **We need a family to be happy, and a LEGION to succeed!!**

Goal Summary:

1) **Send Mr. Frydnes to me in Jacksonville, Florida** ASAP with funds (A million dollars would be just enough to get back on track and help families and essential organizations around us), to reunite and save the Princess and the Castle, a TREASURE of patrimony, art and culture. Nobel Prize Nominations are opening October 31st!! There is no time to wait. Take a tour here:

https://youtu.be/ODSnx03YtMY?si=7mqemNq_ZprOWfFY

2) We will work together on **preparing the Nobel Peace Prize Awards Ceremony** (organization, staging, speeches) and I will lead the Nominations campaign for 2026 (invitations, contact to nominees). As a chair, I would like to bring my own nominations and catalogue of proven geniuses and network to the selection. At the following link, you can see all my video presentations for the Nobel Prize, the SG of the UN and his latest speech and call to action:

www.PachaMamArt.org/JFK

3) Coordinate our expedited recruitment to the **United Nations, United Nations Alliance of Civilizations (UNAOC)**. Bridging our organizations will ensure harmony and integrity towards all nations and social classes.

www.PachaMamArt.org/the-United-Series

4) **Attend the Awards Ceremony in Norway, in December, then Move in to NYC mid-December**, or January 1st at the latest. We would love to start planning very soon, visit our son in Hawaiï for Thanksgiving, Christmas with the Nobel Prize family and New Years at the **United Nations!** Sounds like a divine plan!!

5) Start implementing our team-building programs and environmental plan of action:

www.PachaMamArt.org/Presidential-Letters

Thank you for your consideration, **Nobel Peace Center**, and infinite gratitude to President Barack Obama for your recommendation. Please forward to everyone and let the reconciliation begin. **WE WON'T STOP UNTIL THIS IS DONE.** We are **LEGION!!** I am a hard worker, passionate about collaborations, love and art. And you should me mine forever.

Please God make this dream come TRUE.

Fanny Ménardi Frydnes.

WRITE ME
A POEM.

WHY DO YOU ABSOLUTELY NEED TO NOMINATE HIM THIS YEAR?

- Mr. Guterres' second mandate as Secretary-General is coming to an end in January 2025. Therefore, he is completing his life-long career as a devoted servant to the world and humanity at the United Nations.
- The Nobel Peace Prize rewards the achievements of one person for the **CURRENT** year, so, it is now or never that we get to honor our incredible leader and peace maker.

NOBEL PEACE PRIZE

WHO CAN NOMINATE MR. GUTERRES?

Qualified nominators: A nomination for the Nobel Peace Prize is only considered valid if submitted by a person who meets certain criteria. According to the statutes of the Nobel Foundation, a nomination for the Nobel Peace Prize is considered valid if it is submitted by a person who falls within one of the following categories, a personal application for an award will not be considered:

1. Members of national assemblies and national governments (cabinet members/ministers) of sovereign states as well as current heads of state
2. Members of The International Court of Justice in The Hague and The Permanent Court of Arbitration in The Hague
3. Members of l'Institut de Droit International
4. Members of the International Board of the Women's International League for Peace and Freedom
5. University professors, professors emeriti and associate professors of history, social sciences, law, philosophy, theology, and religion; university rectors and university directors (or their equivalents); directors of peace research institutes and foreign policy institutes
6. Persons who have been awarded the Nobel Peace Prize
7. Members of the main board of directors or its equivalent of organizations that have been awarded the Nobel Peace Prize
8. Current and former members of the Norwegian Nobel Committee (proposals by current members of the Committee to be submitted no later than at the first meeting of the Committee after 1 February)
9. Former advisers to the Norwegian Nobel Committee

On the Way to the Sun!

A technology made of solar energy or thunder electricity, temperature regulation, a fusion of metal and crystals, sound vibration, and reverse magnetism to create an anti-gravity formula, that explains stationary flying objects and even, crop circles!! Our goal is not only to explain how to function a spaceship to reach the Sun, but also how we can create an impulsion without fuel and combustion. With the creation of the Space Force, Virgin Galactic and now the entire world traveling to space, while we are barely able to solve our own planet's recycling and pollution problems, let's start the Universe's quest on a clean, solid and artistic base. This super energetic mandala is a mix of natural figures and Chinese symbols of the Elements, as explained in the movie Naruto, to compose a geometric and energetic equation. A clockwise circuit. Are you ready for take-off? Let's call upon Yoda, butterflies and my greatest friends, the Dragons!

This painting of the Metatron's Cube is called: "Ministry of Sound"

The circles represent the STARGATES, our NEXT STEP!! Traveling faster than the Speed of Light through Portals, also called wormholes, with the connections from one side of the Universe to another, as Nassim Hamein, Director of the Resonance Science Foundation, explains. This painting is literally a Space Time travel device. Trust me, it works!

ly, we obtain the cut-off condition equivalent to the unifying energy occurring at the Planck s

$$R = \sqrt{\frac{hG}{c^3}} = \ell$$

$$M = \frac{1}{2} \sqrt{\frac{hc}{G}} = \frac{m_\ell}{2}$$

ℓ and m_ℓ the Planck mass and length respectively. Therefore, Planck length and Planck mass d in scale in the spacetime structure, typically chosen as a limit as well at the center of black rity or in the big bang cosmology.

gh this computation is heuristic in nature, it has the virtue to clearly illustrate that the onl ry units, or natural units, of the Planck scale (where forces are unified), are congruent wi zschild solution to Einstein field equations, defining an elementary spacetime pixel due to v ions and producing quantum foam.

t-off and its associated quantum foam was further demonstrated by Wheeler (in [25]) who calc racteristic length scale at which spacetime metric fluctuations can be observed as a response of v magnetic fluctuations. Wheeler analyzed the phase of the Feynman-Huygens equation for mbines an Einstein-Hilbert action and an electromagnetic free field such that the exponent pl ed by

$$\frac{S_H}{h} \sim \int [(c^3/8\pi h)(\partial g/\partial x)^2 + (1/8\pi hc\mu_0)(\partial A/\partial x)^2] (-g)^{1/2} d^4x$$

S_H is the Einstein-Hilbert action with a potential vector A and $g_{\mu\nu}$ the spacetime metrics. region of space L^4 , the phase variation $\delta\varphi$ in the path integral formulation due to alterations component δg and electromagnetic fluctuations of the potential vector δA can be written as

$$\delta\varphi = \delta S_H/h \sim (c^3/hG)L^2(\delta g)^2 + (1/hc\mu_0)L^2(\delta A)^2$$

he phases are defined as

$$\delta\varphi_g = \frac{c^3 L^2 (\delta g)^2}{hG} : \text{gravitational phase}$$

$$\delta\varphi_{em} = \frac{L^2 (\delta A)^2}{hc\mu_0} : \text{electromagnetic phase}$$

I had cars to fix, houses to remodel, and all the rest but I canceled all of it. I just said "screw it" and went all in.

Tommy was emailing me every day, David I were talking on the phone constantly, and both were really nice to me. I got someone to help me create a formal business plan, and made sure it had all the different parts of a plan, the charts and graphs and our splits, and how we would run it, and all of that. I finished it and FedExed it to Tommy and David. Then I got on a plane to LA to see David.

His office was right on Sunset Boulevard, and I knew David was a famous attorney, but I had no idea just how famous he was. His office was covered in memorabilia and pictures of him with all kinds of super famous people.

I had gotten lost in the work before getting to LA, so I didn't have time to feel anxiety then. But as I stared at pictures of the most famous people on earth, all with this lawyer I was about to meet, all that anxiety came back. I was still 26 at that point, feeling insecure and really out of my league.

Eventually the receptionist told me David was ready to see me. I walked into his office, and he was just as nice as he was on the phone.

"Dean, I have to tell you, this is impressive. Your whole proposal was great. I want to do this. Let's figure it out."

Dear Colleagues,

We had a great first day! You are cordially invited to the [4th United Nations Open Science & Open Scholarship Conference](#) from 16 to 18 October 2025, which will be held both on-line and in-person at the United Nations University (UNU) in Tokyo, Japan. It is organized by the Dag Hammarskjöld Library of the United Nations Department of Global Communications in collaboration with the Department of Economic and Social Affairs, Division of Sustainable Development Goals, and UNESCO's Division of Science Policy and Capacity-Building.

[REGISTER NOW](#) to receive the link to the Conference. We begin again at 10am Japan time 17 October.

The Conference is in English with simultaneous translation available in Japanese and Spanish. After logging into Zoom, select the channel for the language you prefer.

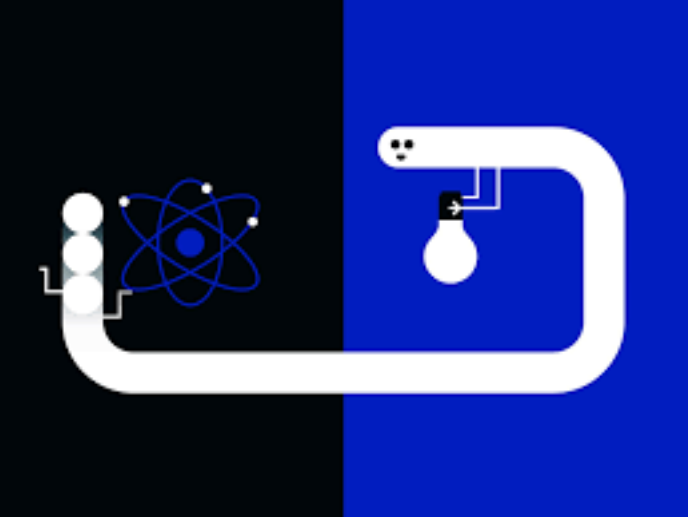

Join us to support the urgent call to accelerate transformations in science and scholarship in alignment with [actions 28-33 of the Pact for the Future](#), and to inspire collaborative actions and coalitions to expedite progress ensuring no country, community, or individual is left behind.

Check out the [conference programme](#) and [speakers page](#) for more information.

There was no prophecy, no sign, no miracle great enough to let me know you'd arrive. What an entrance into my life! The world told me to be resilient, taught me courage but, out of nowhere, you showed up with respect.

Loyalty, and love. All I was waiting for.

How did you find me when I was lost?

How could you love me while I was dead?

Such luminous and courageous soul, you broke all the rules and restored morals. In one strike, that look in your eyes, was all the truth, the love, the lies... You felt like Justice and Wisdom, an Angel, a man made of literature, compassion and Gold who's read it all, and understood the entire Cosmos. A spark of hope to unleash the new Earth, what else could I do, after seeing you? My fairytale was real, the reason why I never settled. The reason why the future suddenly seems possible. Let's go, my love, let's take on the world and make them wish they'd be us.

We've earned it. No more games, all is fair.

♡ You + me = Forever. ♡ I want you to come Home.

"Side by side then, placed they other spaces,
Filled them with Life and with Light from above.
Builded they then the Halls of Amenti,
That they might dwell eternally there,
Living with Life to Eternity's end.

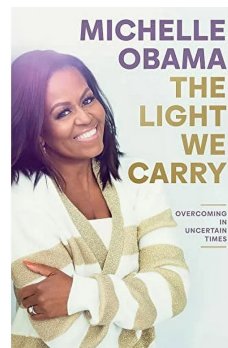

Thirty and two were there of the Children,
Sons of Lights who had come among men,
Seeking to free from the bondage of darkness
Those who were bond by the force from beyond.

Deep in the Halls of Life grew a flower, flaming,
Expanding, driving backward the night.
Placed in the center, a ray of great potency, Life
Giving, Light giving, filling with power all who came near it.
Placed they around it thrones, two and thirty,
Places for each of the Children of Light,
Placed so that they were bathed in the radiance,
Filled with the life from the eternal Light."

Michelle Obama

I have been a great admirer of the Obamas forever and never disappointed. Despite being Presidents twice, and winning a Nobel Peace Prize in 2009, the couple has never ceased to support their communities and create opportunities.

Just like her husband, Michelle is a true leader and friend of the people, giving her time and energy for conferences, books and politics. Thank you for your light and wisdom, it would be such an honor to meet you!!

For their consistent efforts to protect Europe and Culture. I am infinitely grateful to you and this team we have been building. Thank you for reminding us of the possibilities and of the power of a community!! We love you ANGELS!! You all truly deserve this!!
