Fanny Ménardi

Vice President

of the  
United States

**Candidacy UNESCO**  
**ASSISTANT DIRECTOR FOR CULTURE**  
**MISSION**

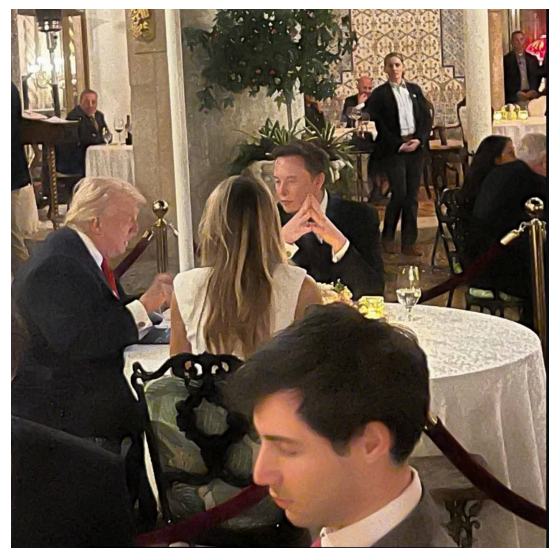

Dear President Trump, Dear Team, United States Government, and American citizens,

These past weeks, I have been offering you a significant number of ideas to create a culture, jobs and boost the economy. I thank you for your kind interest and respect my work, it is truly reciprocal and I admire each and every one of you! I admire President Trump for responding to constructive critics with solutions. He has been extremely cooperative and supportive! We are a great complementary team! Here are the projects I am proposing:

- I would like to create the greatest Scientific Research and Arts Center ever created, here in North Florida, to contribute to the local economy and Space Engineering Industry, to attract high-skilled people and boost the economy in the region. It will be called **Ministry of Sound**. We can't just cut jobs around and drown the economy. At that point, I and We, the People, do not have time to wait around! We need these projects now and to create a CIRCULAR ECONOMY.

I am also taking advantage of this catalogue, to also submit my candidacy to UNESCO PARIS, the GREATEST CULTURAL CENTER IN THE WORLD, and would love your full recommendation and support. This would be a great experience to learn everything about the European Culture and share with our partners, the American mindset of persistence and excellence, so we can bring this here in the USA. France definitely needs it, while we, in America need to ALSO work on culture and welfare.

- Discuss hot topics in a State Tour with the American People, listen to their questions and concerns so we can solve challenges around the themes of immigration, Demography, economy, job creation and technology. Not as Republicans or Democrats but as American citizens.
- Guide our audience and give them reassurance, transparency and intelligence. INVEST INTO SMALL BUSINESSES.

- Work closely with the United Nations to fund and receive advice on International Legal Frameworks and Justice! SUPPORT the work and voice of HUMANITARIANS.
- I would like to make an IMMEDIATE CALL to ENCOURAGE RUSSIA to sign a PEACE Treaty with Ukraine. Yes, we have a bigger plan, which is to start a DENUCLEARIZATION PLAN that should be MENTIONED in the Treaty and promoted to BRICS and NATO countries during the G20 in Miami on December 2026. This gives us a year to work on this PLAN. We will work CLOSELY with EMBASSIES to enforce the transition from Nuclear warfare to Nuclear Removal Safety. Please DO NOT ignore this main element of the plan. We have to start somewhere!
- What happened with Mr. Maduro is the proof that confiscating weapons of mass destruction enables neighbor countries to end impunity quickly and efficiently without fear of cataclysmic repercussions. This is why rebuilding trust and denuclearization MATTER SO MUCH!

**TIME FOR PEACE!! NOW!!  
TO THE END OF WEAPONS TRAFFICKING.**

**Please dear friends,**

**Team America, please support this project!**

**Team UN and France, Mr. Secretary-General Guterres and President Emmanuel Macron, please recommend me to Mr. Khaled EL ENANY for the Assistant Director for Culture Position! Going back to my native country where people actually show up for me to hug me, and reconnecting to my culture, may be what I need now. Please God allow this opportunity!!**

**America, you have played too much with my heart. The level was too excellent to look away, yet too cruel to survive. We turned our poetry into creativity every day of our life. BUT YOU NEVER OPENED THE DOOR FOR ME, AMERICA. NOT ONCE, except to go back to where I was 15 years ago as a teacher. Going to UNESCO would be the sign that all my artwork and knowledge was not in vain. I pray, and leave you, heartbroken, grateful, hoping that I will see you again to make dreams happen. Thank you, Team 143!**

Merry Christmas from Vice President Vance and @SLOTUS Usha Vance! 🎄

## PRESIDENT DONALD J. TRUMP

[nominations.nobelpeaceprize.org/nomination](https://nominations.nobelpeaceprize.org/nomination)

## **NOBEL PEACE PRIZE NOMINATION FOR PRESIDENT DONALD J. TRUMP**

Jacksonville, December 25th, 2016

Dearest Nobel Peace Prize Committee,

MERRY CHRISTMAS! Kindly receive my sincere salutations and nomination of President Donald Trump, for his exemplary work and consistent efforts to achieve PEACE THROUGH STRENGTH. I am exhausted of the hate dividing our world. Hate for politicians, between people, within families.

Since the elections, I have been President Trump's biggest critic, mostly regarding the theme of immigration. Sometimes, establishing priorities is necessary for progress, but still, he listened to our case and has always been the bigger person, offering solutions to prove us better. They encouraged me to publish the stories of immigrants who had lost everything escaping the guerrillas. Upon your announcement of Mrs. Machado's Nobel Prize, he immediately took action to support the transition to Democracy, declaring the Government of Venezuela a terrorist organization, arresting their ships and pressuring Maduro to step down.

President Trump resolved up to 8 wars between India and Pakistan, Cambodia and Thailand, a ceasefire in Gaza, and is negotiating a Peace plan with Russia that NEEDS to include a denuclearization program. Today, December 25th, the U.S. military targeted ISIS in Nigeria. In Israel, the presence of the USA is essential to monitor the controversial eradication of terrorist groups and the expansion of weapons of mass destruction. We honor the courageous humanitarian heroes and the United Nations, at the frontlines of this everlasting trauma.

President Trump's other strategy of appeasing conflicts with tariffs is a more moderate way to make Governments review their diplomatic approach while benefitting the economy. In his Government, he gathered allies of all horizons. With our amazing team, we will inaugurate the Ministry of Sound: an opportunity to bring PEACE to the silent revolution, to heal the voice of those who struggle, by manifesting the American Dream.

Thank you for your support and collaboration,

Respectfully,

*Fanny Ménardi*

⚠️ The KEY word for 2026 will be TRUST ⚠️

I have been asked by the American Government to TRUST, so that is what I'm doing. And I hope they trust me too. I am VERY grateful to President [Владимир Путин \(Фен група България\)](#) for your support in my journey. This war was a war against CENSORSHIP and CULTURE CANCELLATION, a war against the MENOPOLY, a war against CORRUPTION and social inequalities. You never know who you are hurting, and the consequences for ALL in the collective. It is TIME FOR REPARATIONS. 🙏🙏🙏🙏

Please [President Donald J. Trump, U.S. Department of War](#) , [FBI](#), kindly read my feedback to concerning the Ukraine/Russia Peace plan.

This is a GREAT plan. BUT it needs a few adjustments:

✅ PARDON must be given IN EXCHANGE FOR A COMMITMENT TO DENUCLEARIZATION by BOTH RUSSIA and [NATO](#), leading to an announcement of a GLOBAL denuclearization program for the next G8 Summit [The White House](#) so then Brics countries can follow.

✅ Also, this is a very Pro-Russia negotiation and I don't see why Ukraine could not join @NATO? But considering the tensions, having a neutral territory in between may be a good option.

✅ FREE ALL THE HOSTAGES.

✅ You must send me Elon Musk NOW!!

✅ It is normal to freeze Russian assets if there has been damages due to war economy. I AM HANDING OVER MY OWN HOUSE to show the good example. We will work to WAVE THIS SANCTION by working together to pay off repairs to Ukraine via bilateral relationships with technology and AUDITS of the weapon trafficking business that happened within Zelenskyy's Government. Accountability are you kidding me??

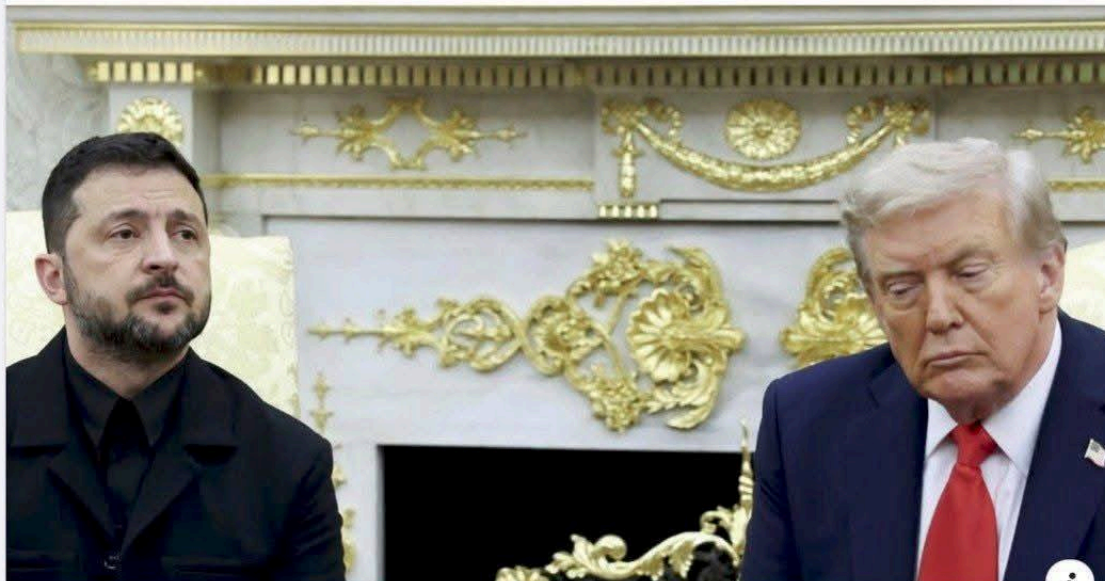

PachaMamArt

✅ It is normal to freeze Russian assets if there has been damages due to war economy. I AM HANDING OVER MY OWN HOUSE to show the good example. We will work to WAVE THIS SANCTION by working together to pay off repairs to Ukraine via bilateral relationships with technology and AUDITS of the weapon trafficking business that happened within Zelenskyy's Government. Accountability are you kidding me??

✅ Elon Musk has [Space X](#) Tesla Neuralink, and I don't see why it is a problem to place my candidacy to several opportunities. The "wait and see" trend has to STOP IMMEDIATELY. Or we will all loose. It's time for a unification. Elon come and get me. RESPECT.

# Ministry of Sound

## Science and Space Engineering

- Scientific research on acoustic levitation for the creation of new-generation aircrafts
- Data exchange between space engineering leaders (Space X, Nasa, Space force, ISS, Blue Origin etc...) for exponential progress and limiting money waste and duplicate research to redirect funds on humanitarian work
- Organization of the Space Olympics 2030

## Culture, Society and Arts

- Art galleries and platforms for artists
- Parks and shops, restaurants, tattoo shops, daycare, pet shelter to boost the economy of North Florida and attract high-skills people high-paid employment opportunities
- Fundraising for the United Nations

## International politics

- Reconstruction projects and architecture
- Progress on international frameworks with the main goal of DENUCLEARIZATION with regular meetings of world Ambassadors, Military world representatives such as NPS for curriculum adjustments, energy transition and representatives of NATO AND BRICS

## Strategic Plan

**A Dream come true! Dear Sir, I am bring AN EMPIRE TO PARIS: Encyclopedia, Artworks, Conferences, Videos, Mentorship, Movies, team-building workshops... YEARS OF CONTENT, PROGRAMS AND EVENTS ready to be offered to our visitors and partner organizations.**

**TOM FLETCHER**  
UN Humanitarian Chief  
GENEVA, 29 DECEMBER 2025

I want to express my thanks to the **United States** for this extraordinary **\$2 billion commitment** to our humanitarian action around the world.

This **bold and ambitious act** of leadership from President Donald Trump, Secretary of State Marco Rubio and Under Secretary of State Jeremy Lewin will save many millions of lives.

Alongside generosity, **reform is at the heart** of the work ahead between the US, OCHA and the humanitarian system. US taxpayers deserve to know how **their support is used**, and we will show how every dollar delivers real **lifesaving impact**.

By supporting country funds, the US is also placing a significant and encouraging **vote of trust and confidence** in the **Humanitarian Reset**, through which we are making humanitarian action **faster, smarter and closer to the people on the front lines of emergencies**. We're cutting red tape, eliminating duplication and prioritizing hard as we set out to **save 87 million lives** in 2026.

The US has long been the world's humanitarian superpower. Hundreds of millions of people **are alive today because of American generosity** – and many millions more **will survive in 2026 because of this landmark investment in humanity**.

**1. How have your achievements and professional experience prepared you for this position? Please refer to the functions of the post and the requirements.**

As a world citizen who has lived and worked in five different countries (France, England, Peru, Bahrain, United States), I understood quickly that cultural heritage and quality of life are intrinsically connected.

Working in schools and cultural centers such as the Alliance française of Bahrain, and developing partnerships with Embassies, local resorts or the Ministry of Education, promoting a foreign language and culture was key to generate curiosity and friendly, genuine interest from communities of all horizons.

As a Cultural Director of the AF Bahrain, or ESOL coordinator at Idea School in Florida, anticipating our event calendar allowed us a better marketing and attendance, as well as the transversal collaboration across sectors and integrating the promotion of our events into our languages classes.

Working with an extremely eclectic range of audience, from diplomats in the Middle East to immigrants and developing communities in the United States, my experience with intercultural dialogue and anthropology will be an asset to provide a strategic direction and leadership to the Cultural Department of UNESCO.

Sometimes, you have to be a leader and show confidence in being the reference. Other times, you have to be someone's safe space and protection, and become the spokesperson for those whose voice has been censored. But all the times, we are humans with dreams and vulnerability who have to remind the world of what we are able to achieve when we work together.

With my Art organization, PachaMamArt, I had the freedom to create and promote my art with all the freedom I needed to expose the reality of a single mum and business owner in America, addressing politicians and business leaders on a daily and consistent basis via my social media platform, which definitely caught their attention, while we were building a bridge between nations and keeping each other accountable.

I learnt a lot from their scientific research or in capacity-building, but I was also severely censored. They wanted me to keep the Art for something great and special such as UNESCO, which took me to you today, but it was also extremely detrimental to my family and finances, as I went bankrupt.

This experience led me to encourage our politicians and audience to develop a circular economy, meaning that we no longer depend so much on the Governments, but that we have the DUTY to invest into each other, into small businesses, culture and humanitarian work. I also encourage them to travel and see the world, understand what makes a great lifestyle and compromise between culture and productivity, with the absolutely necessary goal of harmonizing the environment and technology.

I also wrote a full Encyclopedia called the PachaMamArt Encyclopedia, a pioneer repertory of world symbols, religious, artistic or cultural, from Egyptian hieroglyphs to Atlantean letters, with a special focus on sacred geometry symbols based on my own artworks, for the most part. It is also a great catalogue of the mentors or scientists, artists and celebrities of our modern world who guided and inspired me during a decade of loyal commitment to the United States of America to fulfill the Prophecy of Pachacuti.

All this content and vision, was created especially for the United Nations and UNESCO. Therefore, it would be my HONOR if you gave me the chance to work with you to serve our communities, empower content creators and offer platforms for them to shine with a vision the world loves, but is often shy to sponsor. I am bringing an entire collection of Art, and training ready to implement in post-war zones or to train our teams to improve corporate culture.

And last, but not least, a decade of following the work of UNESCO and the United Nations, NATO, BRICS and the American Government makes me an EXPERT about your core values and significant necessity to use creativity, Arts and Science as inspiring tools for peace building, economic development and rehabilitation.

and denuclearization plans for politicians. I guarantee you that I am ready to take all this content and implement it among our teams, and work in close collaboration with other creators, to ensure excellence and quality. And last, but not least, I LOVE to travel and created a series of travel books, conferences and produced two movies about EGYPT from the Yo Soy 2022 event organized by the Arsayian Foundation. Of course, creating content from our events has several objectives such as educating, referencing the mission for funding purposes and raise interest for artistic endeavors.

Watch Yo Soy 2022, The Movie here:  
[www.PachaMamArt.org/key-of-hearts](http://www.PachaMamArt.org/key-of-hearts)

### **3. How does this position align with your career expectations?**

The United Nations is the GREATEST ORGANIZATION in the entire world. After about 25 applications to the NYC headquarters for a wide range of cultural and political assignments, I finally spent a year asking His Excellency Secretary-General Guterres to appoint me as the new UNAOC Director alongside Ms. Maryam Bukar Hasan, so we could be complementary in representing communities around the world. My persistence raised their interest, and this is how we developed a strong online partnership and presence.

Since nothing official happened, I got bankrupt from waiting around in my teaching job. In parallel, I developed an anti-gravity equation that could enable us to build new-generation spaceships, which raised the interest of Elon Musk, Space X and the U.S. Government. So, for the past year, I have been working on submitting the project of creating a new branch of the U.S. Government called “Ministry of Sound” - Elon Musk funded - where we would promote Science and Space Engineering, Arts and Diplomacy to create economic opportunities and attract high-skills in the North Florida areas, which is extremely needed. No matter what, my Art collection is reserved for UNESCO, and the profits of our work will be donated to the United Nations, and to create culture and employment.

I still hope that the U.S. Government, Prince Charming or Mr. Guterres will come and save me, but if they don't, I will go back to France and try my luck there. Working with an Egyptian Director at UNESCO and being back into the European culture will be so inspiring and refreshing! My work is all my life, wherever destiny takes me. I LOVE FRANCE, I LOVE PARIS, I LOVE UNESCO!! Still, this would be bitter-sweet because I wanted to bring THIS wonderful culture to America, a country where it is lacking tremendously, among the engineering that could ensure our survival or destroy us,

between AI and Space engineering pollution, and the heart of global financing decisions, I really felt like my mission as the voice of Pacha Mama was there, to help them stay in the right track and spare innocent people's lives. I can adjust, convince, work hard, but I cannot control their actions nor decisions. We live in a democracy and all I can do now is keep knock knock knocking on Heaven's doors and see if God finally has something good in store for me, so I can help him greet our next visitors with amazing art and manners.

Kindly download my PDF brochure of the UNESCO COLLECTION:

<https://pachamamart.org/wp-content/uploads/2025/03/The-UNESCO-COLLECTION-BOOK.pdf>

And watch my latest VIDEO FOR THIS APPLICATION at:

[www.PachaMamArt.org/UNESCO](http://www.PachaMamArt.org/UNESCO)

**How many years of progressively responsible relevant professional experience from senior leadership/executive positions do you have in areas directly related to UNESCO's Culture Programme, including assignments at the regional and/or international levels?**

My international career of 20 years as a teacher or cultural director has required me to be a leader, coordinating students or teams to implement curriculums and event calendars.

**Do you have proven record of leadership in developing and implementing policies, programs or international frameworks in areas related to culture?**

Yes, I can provide my cultural programs and pictures of the events I organized. You can also visit my entire website to see my conferences, and read all the environmental programs and peace plans I submitted to the United Nations and The White House at:

[www.PachaMamArt.org/the-United-Series](http://www.PachaMamArt.org/the-United-Series)

## *Right by You,*

**by John Legend**

[Verse 1]

Will you live like me, in a world run  
by desire?

Will you wake from worldly dreams  
and not be tired?

Will you work like me to lift the conversation higher?

Will you be cool like water putting out the fire?

How can you be free from all this sorrow?

Will the ones you love today be gone tomorrow?

[Chorus 1]

And if angels don't have answers to your prayers

Oh, I will be there, oh I will be there

[Verse 2]

And if who you love don't want your love, well then...

Do you cut a deal with love and run again?

You see, love contains the meaning of despair

Will you think like me? Will you have your mother's fire?

Maybe the way we are will not be how you're wired

Will we do right by you? Will you have what you require?

To make your days on this Earth be not so dire?

[Chorus 2]

Can you choose to lead if no one follows?

And if we fell today, must you tomorrow?

Sanctify your answer not your prayer

Oh, I will be there, yeah, I will be there

Yeah, I will be there

[Outro]

And even when it all becomes too much

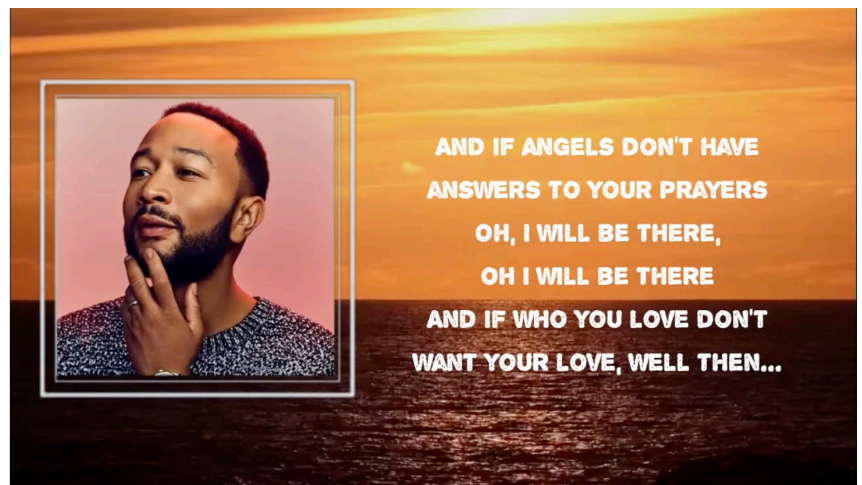

When you're growing old and feeling out of touch

Listen to this song and just take care

And know that I will be there, yeah, I will be there

No, I swear that I will, yeah, I promise I will

Little girl, I'm cryin'.

## NOBEL PRIZE NOMINATION

Our incredible, compassionate and daring leader, Secretary-General António Guterres, has dedicated his life to humanitarian, environmental and political action. Here are examples of his leadership in 2024:

He is the only person I have ever heard standing at the General Assembly to denounce the scandal and threat of nuclear weapons. We prepared a nuclear removal plan involving worldwide embassies, partners and engineering trainings to operate the energy transition.

Upon his command, the UN delivered relentless humanitarian relief in war zones, to the risk, and often loss, of their own lives. He condemned the large-scale missile attacks in Ukraine, and reached 11 million people with humanitarian assistance by the beginning of 2024.

During the war in Israel, he gathered the Security Council and called for a two-state solution. He sent between 100 and 500 trucks PER DAY to support victims with food and medical assistance.

He met survivors of the Holocaust and spoke against racism. He visited temples of faith around the world to promote the power of unity, such as the Ohel-Jakob Synagogue in Munich. He met with the families of victims in Gaza to offer his condolences.

He spoke for the right to education of girls in Afghanistan, and published portraits of role models such as Nelson Mandela, Kofi Annan or Major Radhika Sen of India (UN Military Gender Advocate of the Year), reminding us that one person can make a difference.

He decorated leaders with the UN Human Rights Prize for their “extraordinary work, humanity and courage”, and reminded the world of fundamental legal frameworks like The Universal Declaration of Human Rights or the UN Charter.

The UN General Assembly approved a \$3.58 billion budget for 2024, including a special account to finance the Organization’s Peace Building funds.

Leaders for prevention and information, the UN organizes capacity-building events worldwide, such as the Summit Of The Future, the Global Summit for AI, or the High-Level Political Forum on Sustainable Development.

SGAG keeps the world accountable and shares hope by repeating messages of unity while offering multilateral solutions.

*“We will never, ever give up on making this world better for everyone, everywhere”.* António Guterres.
