Dear International Criminal Court of Justice,

Excellency,

My name is Fanny Ménardi, spokesperson for President Putin, mandated by the Russian Ministry of Foreign Affairs and his personal secret service team, led by Anton Afinogenov, as well as the United States Department of States, to redact this article, reaching you regarding your case against him. I am kindly asking you to acknowledge this letter with the following facts and perspectives with great attention, **to watch my video presentation of the files**, and **read the entire enclosed magazine**, in order to consider his **PARDON and free circulation as one of our main negotiation points for the Peace Treaty with Ukraine.** The entire world wishes to see a reconciliation between Ukraine, Russia, HEART of the BRICS Alliance, and NATO countries. I believe this initiative is also supported by Mrs. Ursula Von Der Leyen.

THE NARRATIVE: Despite the "*unprovoked Russian aggression*" narrative that we have heard since 2022, NATO did not respect a promise of non expansion and non-militarization towards the East, and most specifically near Russian borders. And when Russia riposted, they were called the aggressors. Now, 90% of European belongs to NATO, and **President Zelenskyy has created a false narrative against a "Russian invasion"**. Russia has stated times and times again that they have absolutely no plan of attacking Europe, yet German tanks and American weapons are found in Ukraine's frontlines, while Ukraine is not even a part of NATO. The HYPOCRISY.

UKRAINE'S CORRUPTION, MONEY-LAUNDERING, WEAPON TRAFFICKING: Billions of dollars and euros are being given or loaned to Ukraine by NATO countries regularly, without guaranty of reimbursement. Money used to now purchase weapons from NATO. Isn't that the definition of a money-laundering scheme? Who does this WAR ECONOMY benefit? It is favorable to create training and employment through the military, but blaming and disrespecting Russia globally for the past three decades

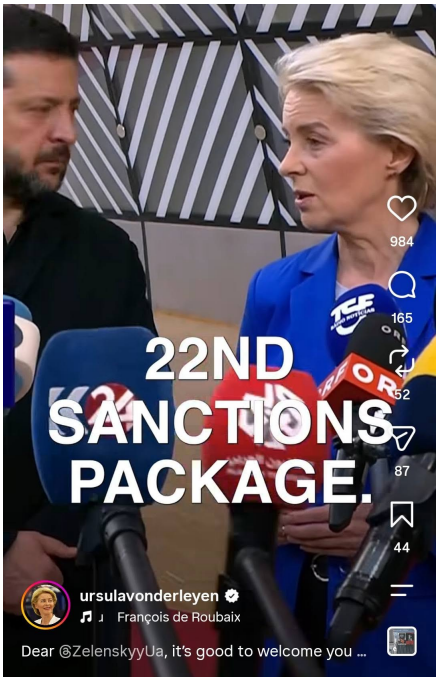

with anti-Russia propaganda is unacceptable. And most importantly, WHY does a non-NATO country have unlimited financial access to our national funds?

HUMAN TRAFFICKING: When Russia occupied Ukraine, President Putin claimed that there were NAZI groups and human-trafficking activity in those regions. Additionally to Ukraine being Europe's prostitution hotspot, those zones were simultaneously weakened by the war, becoming even more prone to human-trafficking. This is when the organization OUR RESCUE went to Ukraine to help. As a result of their investigations, they dismantled human-trafficking networks tracing all the way to latin America. This is NOT something that originated from the war, so have we simply considered the fact that President Putin could be **telling the TRUTH,** and relocated civilians within their borders to keep them safe, and educate them?

INTEGRITY: President Putin has shown so much respect for children and women all along his career, denounced pedophilia on a constant basis, while preaching for culture and restoring Justice. Freedom is worth going to war for. This article from the U.S. Department of State splits responsibilities between the two countries. As a matter of fact, forcible civilian abductions for military enlistment has been largely proven to be happening in Ukraine by the Kiev regime and broadcasted all over social media by civilians themselves, who do not even want to fight for their country. I**s there a case against Zelenskyy pending at the ICC for torturing their own people? For bombing Russian oil refineries, buses, telecommunication companies, private homes etc, up until this very week of November 2026?**

https://www.state.gov/reports/2026-trafficking-in-persons-report/ukraine

ECONOMIC CONSEQUENCES: Russia has strong allies and decided to not tolerate a constant bullying from their neighbors such as the UK, Germany, Denmark etc… People who have applied 22 sanction packages against Russian people to freeze their assets or censor the Russian language, but always closed the door to negotiations under the pretext of an "ironclad defense" and "increased defense spending". Ignoring Russia in their decisions while nearing their borders, inevitably has an impact on the region's economic trades and influence. This economic competition and attempts to make Russia vulnerable has only shown the Russian Government's determination and true character in rebuilding their reputation and proving their greatness yet and again amongst their BRICS

partners and EVEN turning the entire world upside down in admiration for their culture and incredible architectures, diplomatic cooperation, and innovations in biotech medicine (Enteromix) with a new Cancer vaccine in experimental stage. Contrarily to the COVID vaccine, by the way worth mentioning, commercialized without any experimental period which cost many lives and disabilities around the world.

HEAD LINES: Here is the fact of the matter: Both countries are getting deeply hurt by this war. It HAS TO STOP and they need to come to an agreement **NOW**.

LOGISTICS:

- Give the land to Russia as it is occupied now.
- Organize ELECTIONS.
- A year later, hold a referendum for people to decide on NATO ACCESSION. **This item, however, being strictly contested by President Putin, should come with the condition of a higher, common purpose**: A commitment to our global denuclearization plan that has been REQUESTED by the Nobel Prize Committee and Laureates, the United Nations, is a key political point of the United States Government and seems to also be welcomed by the European Parliament, via their interactions and enthusiasm on our social media networks. Let's make it official!
- Surrender the Frozen assets and repair.
- RUSSIA AND NATO both contribute to the reconstruction of the broken cities. We build new residential areas and economic poles like MONACO of France. A meeting point between NATO and neighbors with great benefits and work opportunities. Central Europe needs our help, we can still provide fundings, but not for weapons. This should be an ICC case of its own.

HUNDREDS. OF. BILLIONS - TRILLIONS- OF. DOLLARS. IN. WEAPONS.

WHILE. PEOPLE. STARVE. OHHH!!!!

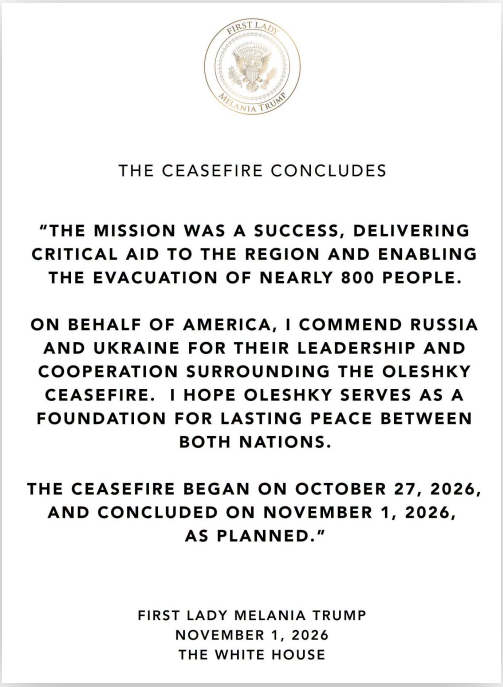

- Sign the PEACE Treaty.

This opportunity to **confiscate nuclear weapons will prevent nuclear blackmail and nuclear impunity for the next generations, and I know President Putin is a great defender of that idea**. **He was the first one to say that "Eventually, the world will need to get rid of its nuclear weapons". But <u>the world now counts 13,000 of them</u>**. This is our oath and desire to be leaders in the denuclearization campaign amongst the

BRICS and NATO countries. I am PERSONALLY mandated by both, from President Macron to the CIA and President Putin's Administration themselves to complete this task.

I pride myself with the honor of receiving full confidence and support from both the United States and the Russian Governments as an International mediator and thank them every day for this incredible and never-seen-before privilege. Turn spies into bridges!! I especially want to thank Anton Afinogenov for joining me on this initiative to accelerate the negotiations process. I also want to thank Mrs. Ursula Von Der Leyen for listening to our discussions and showing interest I turning this chapter of history to open up to new dynamics. Less weapons, more education!

REPARATION: Now let's not look away either: **I know that we need to be accountable for the undeniable, tragic losses in this war. And we are working DILIGENTLY in SHOWCASING THE ABSOLUTELY MAGNIFICENT AND CHARISMATIC RUSSIAN CULTURE AND CREATING NATIONAL AND INTERNATIONAL OPPORTUNITIES**. There are theaters and renewable energy projects. We want to trade the weapon industry for FUN technology. Solar cars and clean spaceships, the Space Olympics… We will hold MEMORIAL ceremonies and really want to focus on THE PEACE TREATY. The Ceasefire organized by First Lady Melania that followed her year-long incentive to reunite families, was a success and great achievement towards our goal.

THE CEASEFIRE CONCLUDES

"THE MISSION WAS A SUCCESS, DELIVERING CRITICAL AID TO THE REGION AND ENABLING THE EVACUATION OF NEARLY 800 PEOPLE.

ON BEHALF OF AMERICA, I COMMEND RUSSIA AND UKRAINE FOR THEIR LEADERSHIP AND COOPERATION SURROUNDING THE OLESHKY CEASEFIRE. I HOPE OLESHKY SERVES AS A FOUNDATION FOR LASTING PEACE BETWEEN BOTH NATIONS.

THE CEASEFIRE BEGAN ON OCTOBER 27, 2026, AND CONCLUDED ON NOVEMBER 1, 2026, AS PLANNED."

FIRST LADY MELANIA TRUMP
NOVEMBER 1, 2026
THE WHITE HOUSE

Please read these files and accept **President Putin's pardon** for the terrible losses in the process of securing their borders from NATO's unwanted expansion, and Ukraine's blatant corruption. **The persistent "DEFENSE SPENDING" politics of NATO Secretary General Mark Rutte, and his discourse about preparing for a war with Russia, are not only frightening, they have been strategic mistakes that held the war in place,** without solving it. His mission is a business based on the war economy, which is not compatible with the peace we seek. The key word should be NEGOTIATION. Start from the end goal and ask how do we get there? We understand that NATO investing into neighboring countries is essential for the economic stability and protection of the region, even though it is a competitive and military risk for Russia. But using Ukraine as a playground for the weapon industry needs to stop, simply because people are suffering. We want more sports, entertainment and cars!

President Putin is a MONUMENT of history and global politics, holding SUMMITS at the Kremlin and extraordinary architectures, conferences about Africa and Science, a PIONEER supporter of the Emirates, China's best ally. An INTELLECTUAL and impeccable host and speaker, EVERY DAY !!! EVERY DAY they let the world know what they are working on transparently, and have proven their good faith consistently. We want this case dropped and a full reintegration of the international sphere without tensions as we REJOICE and look forward to working together as allies, organize the World Expo 2035, and very soon the creation of an innovative Ministry of Sound and Space Olympics!!

Very respectfully,

Team Flow and Fanny Ménardi

europeancommission Big news for Montenegro, Albania, Ukraine and Moldova. 🇪🇺✨

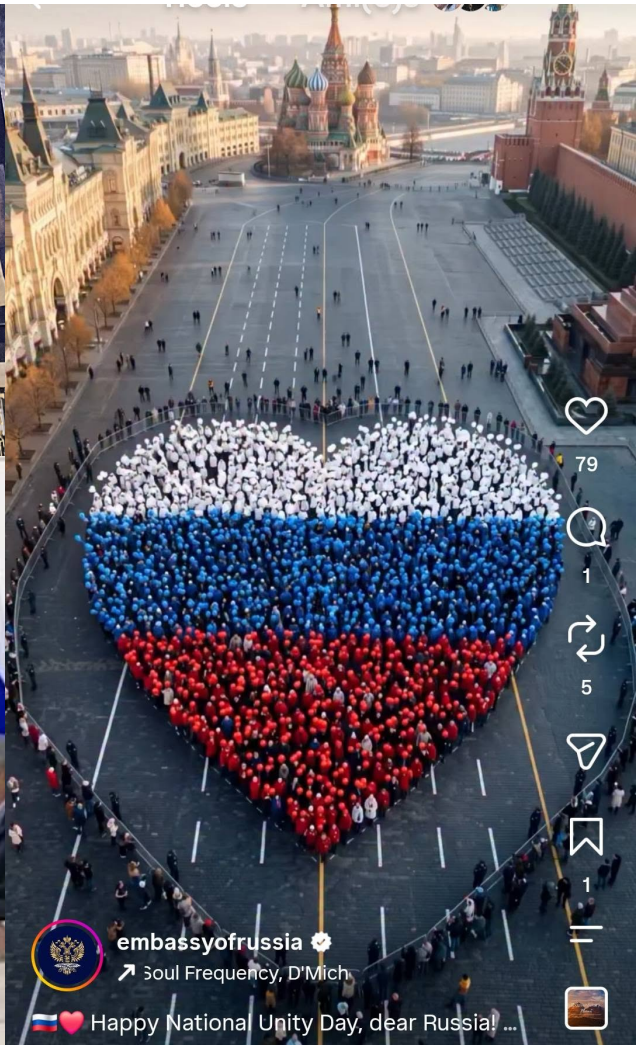

Today, we've shared our yearly update on countries aspiring to join the EU, highlighting the progress made by these four frontrunners. The reforms are paying off, and they are moving forward.

Why does it matter? Because every enlargement so far has made the EU stronger. Since 2004, living standards in the newer EU countries have doubled, life expectancy has increased, and millions of new jobs have been created across Europe. 🙌

Step by step, we are building an ever-stronger Union.

Yes, we really need to talk about enlargement. The only way that Ukraine could become a part of NATO, regarding the tensions with Russia, is to organize elections and make a referendum from Ukraine citizens count 50% of the decisions, and then voted from the EU Parliament 50%, as well as starting a disarmament plan to attest of our pacific diplomatic ties.

Debris and a broken window inside the kindergarten in Kyiv

Zelensky added that beyond Kyiv, substations were damaged in Vinnytsia, Zhytom
Rivne, Kharkiv and Dnipro regions.

The latest attacks come after US First Lady Melania Trump **hosted Russian and Ukrainian delegations** at the White House on Thursday.

She called for a "more enduring" ceasefire in Ukraine following a truce last week in
southern region of Kherson.

She thanked both Zelensky and Russian President Vladimir Putin, making no refer
the origins of the war, which began when Putin launched a full-scale invasion of U
in February 2022, which has caused thousands of civilian casualties and the displa
of millions.

Hundreds of residents of the Russian-occupied Ukrainian town of Oleshky facing starvation and constant bombardment **were able to evacuate during a six-day ceas** which both Moscow and Kyiv credited Trump with brokering.

"The lives of innocent people must transcend the division of war. I hope Oleshky in
greater peace," she said.

"Our goal is to go out of business"

Do you know who said this famous quote? Hmmm I'll give you a hint > NOT - THEM.

ARREST. THOSE. CRIMINALS.

Do you really think they care about ending this business?

How many times have you heard Vladimir Putin Владимир Путин say he was open to discussions? How many times have we heard NATO or Zelenskyy talk about negotiating peace with Russia? Zero. All we hear is "Victory". Ohhh really cuz it's been three years and the people are the only ones in the room who don't have a few million bucks in our pockets. For those who are lucky to have pockets. Laugh now because one day I'll throw each one of them to jail for treason to humanity. War is the only game where everyone looses.

RUSSIA OR EUROPE?

kyivindependent.com

Politics Business Russia Europe Opinion Video Culture Investigations War Crimes Explaining Ukrain

Ukraine's debt is ballooning. By the end of last year, the country owed over $213 billion to creditors — a hair's breadth away from the size of the country's entire economy.

That doesn't include a new 90-billion-euro loan to Kyiv agreed by European leaders at a summit on Dec. 19, of which a sizable chunk will add to Ukraine's debt pile.

As Russia's full-scale invasion approaches its fifth year and progress towards a peace deal remains uncertain, the anticipated postwar reconstruction boom is on hold. Instead, the status quo persists — Ukraine continues to rely on foreign cash, taking on more debt to keep fighting for its independence.

"It is impossible to navigate elevated budget needs and deficits — driven by higher defense and security spending — without public debt increasing," Yuriy Butsa, Ukraine's government debt commissioner, told the Kyiv Independent.

"However, we are doing everything in our power to keep debt manageable, sustainable, and not undermine Ukraine's future recovery and reconstruction," he said.

But as outlined in a recent paper from the Peterson Institute for International Economics, "(Ukraine's) postwar public debt burden could pose a threat to economic progress."

It's been five years of intense pressure, we are sick of it! Things need to MOVE! Russia is defending its borders from the gregarious, "DEFENSE-SPENDING" and one-way POLITICS. Defense from what? There is no enemy!

The day we decide to start the denuclearization program, there is no changing course. Our agreements must be based upon complete trust and the promise that the end of nuclear impunity is the beginning of more mature behaviors, oriented towards genuine and mutual diplomatic relationships, like the one Russia holds with China. Western assurances about NATO enlargement 1990-91

Summary

a) The September 1990 treaty on German reunification contained nothing to rule out the Eastward expansion of NATO beyond Germany.
b) Nor were any texts subsequently negotiated that gave such assurances.
c) Some of the language used by American and West German officials in the run-up to the German reunification agreement was loose.
d) Responsible Western officials speaking after the German reunification agreement did specifically say that there was no intention of enlarging NATO further.
e) The Russians still refer regularly to this record, and claim that they were treated in bad faith.

Which President Putin do you prefer? The one who welcomes and gathers Holly representatives of all faiths, or the one who has to protect his country from constant intimidations?

Everyone needs something right now. Prisoners freed, a refreshed energy, investments that require courage and sacrifice, and the best world experts.

Please do not let this be another year of status quo. Send the funds, Free the People, and let's build the culture that animates us all.

The main thing is:

🔻The aim of the new trilateral negotiations will be to reach agreements on ensuring the security of Russia and Ukraine in the future.

🔻Russia will see how it will develop the situation regarding the settlement in Ukraine in the coming days.

🔻When discussing the security of Russia and Ukraine in the future, we need to talk about the architecture of European security.

🔻Russia does not want to go to war with Ukraine, but if the current Ukrainian leadership wants to - it's their business

leader_of_russia_ Vladimir Putin: The unity of the peoples of Russia plays a key role!

Russia has historically developed in the interaction of peoples, ethnicities, languages and customs, the president stressed at the plenary meeting of the International Week of "People of Russia".

The President also noted that special attention has always been paid to international relations in Russia, this is a thin line, and any attempts to incite differences
